

Saritha
Full Stack Java Developer
tsaritha349@gmail.com
571-308-8739

PROFESSIONAL SUMMARY:

- 5+ years of Software experience in Design, Development and Deployment of Web-based Client-Server business applications using **Java, J2EE** technologies.
 - Good knowledge on core java with strong understanding of Multithreading, Collections, Exception handling, Garbage Collector.
 - Scripting languages like JavaScript, JQuery, AJAX, Angular JS, Node JS, Backbone JS, and good knowledge in React JS.
 - Good Knowledge of Java 8 Features including Lambda expressions, Method references, Functional interfaces, Stream API, Default methods, Optional class, Collectors class, array sorting etc.
 - Experience in **Agile** software development process **Scrum** methodologies.
 - Experience in applying design patterns like **MVC**, Singleton, Factory, Abstract Factory, Strategy, Builder, Facade etc.
 - Experienced in developing web applications by implementing Model View Control (MVC) architecture using JSP Servlets, **J2EE Design Patterns, Spring Framework** (Spring MVC/IOC/ORM/AOP/Security).
 - Involvement in the design of user interface of the application using **HTML5, CSS3, JavaScript, Bootstrap, Angular, JQuery, Redux**.
 - Hands-on experience in writing Unit test cases by using **JUNIT** and **Mockito** frameworks.
 - Experience in **Maven** build tools.
 - Experience in creating **RESTful** web services using **Spring boot, Java Spring JPA, Hibernate**.
 - Experience in using **Spring ORM module** and integration with **Hibernate** ORM framework. **Spring JDBC, Node.js**.
 - Expertise with ELK Stack (Elasticsearch, Logstash, Kibana), Splunk, AWS CloudWatch, and application servers such as **Apache Tomcat, JBoss**, and **WebLogic** for logging, monitoring, and deploying applications.
 - Deployed **Microservices** application through **Docker** and **Kubernetes** cluster formation.
 - Knowledge on **AWS** Cloud-Specific technologies including **EC2, Lambda Functions, S3, API Gateway** etc..
 - Proficient in version control systems like **Git, GitHub**, and **BitBucket**, and testing frameworks, including JUnit and Mockito, to ensure code quality and reliability.
 - Experience in database modeling, design, and development of **PL/SQL stored procedures, triggers, packages** and views in relational databases: **Oracle, MySQL**.
-

TECHNICAL SKILLS:

Programming Languages	Java, J2EE, PL/SQL.
Web Technologies	HTML5, CSS3, JavaScript, jQuery, Angular, React JS, TypeScript, Redux
Spring Frameworks	Spring Boot, Spring MVC, AOP, IOC, Spring Security, Spring Batch.
Java/J2EE Technologies	Servlets, JSP
Messaging Services	Kafka
Build & Configuration Tools	Maven, Jenkins
Testing Tools	JUnit, Mockito, Power Mockito, Jasmine, Karma
Version Control Tools	Git
IDE's	Eclipse, Visual Studio, IntelliJ, Spring Tool Suite

Databases	Sql, MySQL, MongoDB
Cloud Technologies	AWS

TECHNICAL EXPERIENCE:

Client: Kaiser Permanente

March 2022 – Present

Role: Java Full Stack Developer

Responsibilities:

- Involved in the analysis, design, development, and testing of the project.
- Involved in writing clean, maintainable code and documentation.
- **Agile** methodology was used to develop the application.
- Implemented Coding Using **Spring Boot, Java** and **J2EE** Design Patterns.
- Designed, implemented, and tested backend APIs.
- Developed and maintained **responsive, dynamic web applications** using **React.js** and **functional components**.
- Developed **Micro Services** using **Spring Boot, Spring Cloud, and Spring Data JPA**.
- Utilized several **Java 8** concepts like **Stream API, Local Time API, Collection API**, lambda expression etc.
- Implemented various features of Spring framework such as **Dependency Injection, IOC, Spring Security, Spring AOP** and Spring integration with MongoDB.
- Implemented Circuit breaker pattern, integrated **Hystrix** dashboard to monitor spring microservices.
- Involved in securing the **REST API's** by implementing **OAuth2** token-based authorization scheme using Spring security.
- Involved in migrating **JSP** applications to Single Page **Angular** Application.
- Involved in writing **Hibernate** Entities and mapping relationships between Entities.
- Write Unit, and integration tests using **Junit, Mockito, Spring Boot Test**.
- Research new tools, technologies, and test processes for software development.
- Experienced with the following Software tools: **IntelliJ, GIT, JIRA, Jenkins**.
- Conducted testing using **Jest** and **React Testing Library** with CI/CD pipelines.
- Worked closely with Devops team to set up CI/CD pipeline using **Jenkins, Cloud Formation Templates, AWS, Maven** and **GIT**.

Environment: Java, Spring Boot, Spring Cloud, Spring Data, Junit, Mockito, HTML 5, CSS 3, Bootstrap, Angular, Docker, REST, Tomcat, Swagger API, Kubernetes, Jenkins, Maven, CI/CD, GIT, Oracle, MongoDB, AWS, Agile Scrum.

Client: CA technologies, Hyderabad, India

June 2019 – March 2021

Role: Java Developer.

Responsibilities:

- Developed application using Java Spring Framework and used Eclipse Integrated Development Environment (IDE), SVN, and Ant.
- Developed the UI Layer using Struts, CSS, JSP, JavaScript, JSTL, XML and X Path.
- Developed the presentation layer using Struts MVC.
- Developed various SOAP based Webservices using Apache Axis2 implementation.

- Developed various service codes to provision the lines and configured them with iBatis and Rest Webservices.
- Used spring framework for wiring and managing business objects.
- Developed PL/SQL programming on Oracle database using Oracle SQL Developer and Java JDBC technologies.
- Managed Service dependencies using Spring Dependency Injection.
- Written JUnit test cases for unit testing and load testing for various service codes.
- Monitored the error logs using Log4j.
- Used SVN for version and source control.
- Tomcat Application Server was used for deploying the application.

Environment:

Java/J2EE, Spring 3.0, SOAP Webservices, Restful Webservices, JMS, IBATIS 2.0, Oracle11g, Tomcat, JUNIT 3.0, Ant, SVN, Apache axis2 and CXF, Log4j, SQLite.

EDUCATION:

Master's in Computer Science in USA at WIU 2022

Bachelors in Computer Science in India at KU. 2019
