PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science graduate student with hands-on experience in software development, database management, and emerging technologies such as AR/VR. Passionate about designing and developing innovative solutions to enhance user experiences. Seeking an internship opportunity to apply technical skills and contribute to a dynamic team environment.

EDUCATION

Master of Science in Computer Science

University of Dayton, Dayton, OH, USA

Expected Graduation: May 2026

Bachelor of Engineering in Computer Science

Dr. M. S. Sheshagiri College of Engineering, Belagavi, Karnataka, India

Graduated: July 2022

EXPERIENCE

Software Developer Intern

Artallur Technologies India LLP, Bangalore, India

August 2022 – August 2023

- Developed and implemented new software features to improve user experience.
- Collaborated with UI/UX teams to enhance interface design and usability.
- Conducted debugging and performance testing for seamless functionality.
- Provided constructive feedback to enhance software efficiency and user satisfaction.

PROJECTS

Home Decor App

- Designed a 3D virtual environment to allow customers to visualize decor items in real-time before purchasing.
- Integrated AR technology for immersive user interaction and enhanced shopping experience.
- Ensured a seamless and intuitive UI for easy navigation and selection.

Online FIR System

- Developed a secure web-based system for users to file FIRs using government-issued IDs.
- Created a user-friendly interface with multilingual support for broader accessibility.
- Designed step-by-step guidelines to simplify the filing process.

Airline Database Management System

- Built a database management system to handle flight schedules, passenger bookings, and employee records.
- Utilized Django (Python), MySQL, HTML, CSS, and JavaScript for development.
- Designed ER diagrams and relational schemas to ensure efficient data organization.
- Developed user-friendly admin and employee interfaces for seamless operations.

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, HTML, CSS, JavaScript
- **Frameworks & Tools:** FastAPI, Django, DBMS, Blender, Quixel Mixer, Photoshop
- **Technologies:** Augmented Reality (AR), Virtual Reality (VR), Machine Learning
- **Databases:** MySQL
- **Soft Skills:** Problem-solving, Team Collaboration, Communication

CERTIFICATIONS

- Introduction to Virtual Reality – University of London
- AutoML for Computer Vision – Coursera
- API Design & Fundamentals of Google Cloud's Apigee API Platform – Google Cloud
