

Sathvik Reddy Kakulavaram

Full Stack Developer

Location: Tampa, Florida | Mobile: +1(813) 869-1239 | Email: sathvikreddy3737@gmail.com

Summary:

- Versatile and detail-oriented Full Stack Developer with over **4+** years of experience in building dynamic web applications and user interfaces. Proven expertise in both front-end and back-end development with a strong command of JavaScript, Java, SQL, React, Angular, Node.js, and Spring Boot. Adept at building scalable APIs, developing clean UIs, and deploying secure, robust web applications in Agile/Scrum environments. Committed to high-quality code through TDD, version control, and cross-functional collaboration.

Experience:

Company: Intel, Tampa, FL | Jan 2025- Current

Role: Full Stack Developer (Intern)

Responsibilities:

- Developed and maintained enterprise-grade applications using Spring Boot (Java) for the backend and React.js for the frontend.
- Implemented backend logic using Java and Express.js, ensuring secure API transactions with JWT and OAuth 2.0.
- Used Jenkins pipelines to automate build and deployment cycles, increasing delivery efficiency by **50%**.
- Participated in Agile ceremonies, sprint reviews, and backlog grooming sessions using Jira and Confluence.

Company: HCL Technologies Limited, Chennai, India | Aug 2021- Aug 2023

Role: Software Engineer

Responsibilities:

- Developed and customized user-friendly UI screens in Guide wire Claim Center using Gosu, Java, and XML, integrating seamlessly with third-party services (Enterprise, LexisNexis, and CCC) to streamline claims processing and enhance data accuracy.
- Engineered and executed comprehensive GUnit and JUnit test cases, increasing test coverage by **35%** and improving defect detection, leading to a **20%** reduction in post-deployment issues.
- Optimized business rules, workflows, and event-driven processes within Guide wire, reducing claim cycle time by **18%** and enhancing overall system efficiency.

Company: Dell Technologies, India | Jan 2020- Jul 2021

Role: Full Stack Developer

Responsibilities:

- Achieved **95%** test coverage for business-critical modules using JUnit, and Cypress through rigorous TDD practices.
- Increased user engagement by **30%** after redesigning the UI using CSS and Bootstrap for responsiveness and accessibility.
- Conducted functional and integration testing using JUnit and Postman for service validation.
- Collaborated in Agile teams, using Git and GitHub for source control and branching strategies.

Skills:

- **Languages:** Java, Gosu, SQL, JavaScript, XML, JSON
- **Front-End Developer:** HTML5, CSS3, SCSS, React.js, Angular, Bootstrap, CSS, Ajax, Json
- **Backend:** Node.js, Express.js, RESTful APIs
- **Databases:** MySQL, SQL Server, MongoDB
- **Web Services:** RESTful APIs, SOAP
- **Frameworks & Tools:** Spring Boot, JUnit, Postman, Jenkins
- **Testing:** Functional Testing, Integration Testing, GUnit, JUnit
- **Development Practices:** SDLC, Agile/Scrum, TDD
- **Cloud & DevOps:** AWS (EC2, S3, Lambda, RDS, API Gateway, CloudWatch, IAM)
- **AI/ML Skills:** Python (for ML), Pandas, NumPy, Scikit-learn, TensorFlow, Keras, Model Deployment on AWS (SageMaker, Lambda), Data Preprocessing, Feature Engineering, Model Evaluation
- **Tools:** IntelliJ, Visual Studio Code, Jira, Confluence
- **Version Control:** Git, Github

Educations:

- **Master's in Computer Science**, University of South Florida, Tampa, USA
