Education

University Of Maryland, College Park

Master of Science in Information Systems

Aug 2023 – Dec 2024

College Park, Maryland

Shivaji University, Kolhapur

Bachelor of Technology in Electronics and Telecommunication Engineering

Aug 2016 – Oct 2020

Karad, Maharashtra

Experience

Genmab

Data Analyst Intern

Jun 2024 – Dec 2024

Princeton, New Jersey

- **Developed a healthcare chatbot** using Snowflake Cortex, AWS, and Streamlit, leveraging RAG to enable 50+ non-technical users to retrieve clinical data insights 40% faster while improving accuracy by 35% through prompt engineering.
- **Streamlined data workflows by building pipelines** with GitLab (CI/CD), DBT (data transformations), and Informatica (metadata management), ensuring scalable, automated data processing and governance.
- **Enhanced customer support** by implementing an NLP-driven self-help agent and a Document AI pipeline, reducing manual workload by 30%, improving response times by 20%, and accelerating data-driven decision-making by 25%.

Education Abroad, University of Maryland

Data Analyst

Jan 2024 – May 2024

College Park, Maryland

- **Consulted with stakeholders and gathered requirements** to redesign the manual study abroad course approval process, using Jira for project management and Agile methodology to track progress.
- **Designed and implemented an automated approval system in Salesforce**, leveraging Apex and Process Builder, reducing approval time from 4 weeks to 1 week.
- **Developed a centralized data repository using MySQL and built interactive Tableau dashboards**, improving data integrity by 25% and providing real-time insights for stakeholders.

Tata Consultancy Services

Data Engineer

Jun 2020 – Aug 2023

Pune, India

- **Implemented end-to-end solutions with Snowflake, IICS, and Tableau** for a US manufacturer, gathering requirements from business stakeholders to define key metrics, improving data integration, and reducing reporting time by 60%.
- **Designed Snowflake architecture with multiple layers of views**, including staging, transformation, and reporting layers. Used views, stored procedures, and UDFs to streamline data processing, improving query performance by 40%.
- **Developed a predictive pricing model** using Python and SQL, analyzing 1M+ sales records to calculate deal scores and identify pricing trends. Improved quote conversion rates by 20% and enhanced deal evaluation accuracy.
- **Created and maintained Snowflake metadata-driven ETL pipelines**, automating workflows and reducing data processing time by 30%. Implemented pushdown optimization and storage optimization, reducing costs by 2TB.
- **Led UAT testing and documentation**, ensuring functionality met business requirements, while using Bitbucket for version control and coordinating production deployments with the development team.
- **Built and maintained 70+ KPIs across 25+ sales metrics in Tableau**, providing real-time insights into pricing, sales, and deal evaluation. Optimized dashboard performance, reducing query execution time.

Projects

Predictive Model for Credit Risk Assessment | *Python, Scikit-learn, Pandas, XGBoost*

- Developed a machine learning model using transaction and demographic data to predict credit risk and assess loan default probability with an accuracy rate of 85%.
- Optimized the model by performing feature engineering and hyperparameter tuning, resulting in more reliable underwriting decisions and actionable risk insights for financial institutions.

Customer Segmentation and Targeting for Marketing | *Python, K-means Clustering, Pandas, Matplotlib, Scikit-learn*

- Applied k-means clustering to segment customers based on purchasing patterns and demographics, increasing marketing targeting efficiency by 30%.
- Conducted exploratory data analysis (EDA) to identify key drivers of customer behavior, generating actionable insights for marketing strategies.

Skills

- **Programming & Databases:** Python, R, SQL, T-SQL, Excel (VBA), DAX, MySQL, PostgreSQL, NoSQL, SAS
- **Cloud & Big Data Technologies:** Snowflake, Databricks, Microsoft Azure, Hadoop, Spark
- **Business Intelligence & Reporting:** Tableau, Power BI, Looker, QuickSight, Microsoft SSRS
- **AWS & Cloud Services:** S3, Glue, Athena, Redshift, EMR, Kinesis, DynamoDB
- **Data Integration & ETL:** Microsoft SSIS, Informatica IICS, Git, BitBucket

Certifications

• IBM Machine Learning Certification

• AWS Certified Data Engineer - Associate
