University of California, San Diego

La Jolla, CA

B.S. Joint Mathematics and Economics, Minor: Business Management, March 2020

GPA: 3.5

- Relevant Coursework: Real Analysis, Applied Linear Algebra, Mathematical Reasoning, Operations Research, Econometrics

PROFESSIONAL EXPERIENCE

Axos Bank

San Diego, CA

Credit Operations Analyst

Nov. 2020 - Present

- Identify and execute enhancement and automation opportunities for the entire Credit department's processes and procedures by using tools such as Python, Infopath and Nintex.
- Supported and implemented internal consulting and process improvement initiatives for the Credit department resulting in an annual savings of \$43K, by analyzing business functions, gathering information, and evaluating system capabilities.
- Provide analytical and reporting support for all business units and conduct data mining using SQL and other analytical tools.

Loan Processor

July 2020 - Nov. 2020

- Performed credit analysis such as analyzing operating statements, conducting preliminary underwriting and recommending risk ratings along with constant communication with loan brokers, borrowers and other departments.
- Requested, inputted and analyzed borrower financials such as income statements, tax returns, tax transcripts, personal financial statements, and statement of real estates owned.
- Monitored loan performance including assessment of payment trends, covenant compliance, tax and insurance payments along with analyzing and reviewing borrower collateral as a risk mitigator.

Project Concern International

San Diego, CA

Operations Intern

Feb. 2020 - May. 2020

- Assisted with program management systems audits for international projects to have a smooth transition into cloud based management systems.
- Supported and researched the implementation of grant compliance systems and policies (e.g., donor reporting, award and contract management).
- Created a dashboard to track project KPIs abroad for Country Directors to use for their country's program development and implementation.

UC San Diego: Operational Strategic Initiatives

San Diego, CA

Strategic Initiatives Intern

July 2018 - March 2020

- Provide support on special analysis assignments including complex problem solving, fact-finding, research of alternative solutions, cost/benefit analysis and report findings on various UCSD resources.
- Work with staff and management on client consulting and assisted with project business analytical needs such as preparing progress reports and developing presentations for internal and external audiences.
- Conduct research, analysis, data entry and validation for various projects and initiatives for various constituencies such as student groups, faculty, deans and leaders across the campus.

Bespoke Partners

San Diego, CA

Research Analyst Intern

July 2019 - Sept. 2019

- Managed a database of over 40K candidate profiles and research projects associated with search assignments, including monitoring candidate progress, creating and implementing communication plans, and harvesting relevant data.
- Conducted extensive research of over 300 public and private SaaS companies, reporting key findings on IPO status, YoY revenue and industry using internal and external resources.
- Analyzed and monitored trade publications for trends in software, including mergers and acquisitions (M&A), private equity and growth equity investments.
