

Sebastian Sanchez

📍 Mayaguez, PR 🌐 [sebastiandsc](#) 📞 939 299 6618 📄 [Sebastian Sanchez](#) ✉ sebastiandsc26@gmail.com

OBJECTIVE

To obtain a full-time Software Engineer position where I can apply my strong foundation in Computer and Electronic Engineering, along with my experience in process automation, programming, and both SQL and NoSQL database architectures. Proficient in C++, Java, Python, JavaScript, and Apache Big Data tools such as Hadoop and HBase, I am eager to contribute to innovative projects and continue growing professionally in a dynamic, tech-driven environment.

EDUCATION

University of Puerto Rico – Mayaguez Campus (UPRM) <i>Master of Science in Computer Engineering</i>	May 2025 – Graduated <i>GPA 3.3/4.0</i>
Universidad del Norte <i>Bachelor of Electronic Engineering</i>	Jun 2021 – Graduated <i>GPA 3.1/4.0</i>

CERTIFICATIONS & TRAINING

AWS Certified Cloud Practitioner (CLF-C02) <i>Amazon Web Services</i>	In progress
Pega Business Architect <i>Pega Academy</i>	In progress
CCNAv7: Switching, Routing, and Wireless Essentials <i>Cisco Networking Academy</i>	Completed
Introduction to Cybersecurity <i>Cisco Networking Academy</i>	Completed

EXPERIENCE

ICUBO Solutions <i>Business Intelligence Consultant</i> Designed and implemented Business Intelligence solutions using Data Warehouses, ETL/ATL processes, and the MicroStrategy platform. Leveraged AWS Athena, S3, Snowflake, and AWS Lambda with Python for data integration.	Colombia - Remote <i>Jan 2025 – Jul 2025</i>
Center for the Advancement of Wearable Technologies (CAWT) <i>Researcher</i> I evaluated and implemented a Blockchain-based system as a mechanism to improve the efficiency and security of storage in the Hadoop Distributed File System (HDFS).	Mayaguez, PR <i>Jan 2023 – Jan 2025</i>
Haipriori <i>Software Engineer</i> I worked with the development team to deliver high quality software solutions. I also assisted in the development, implementation, testing and debugging of software.	Mayaguez, PR <i>Jun 2023 - Aug 2023</i>
Transmedia Production Laboratory <i>Software Engineer</i> I developed Frontend and Backend of Web Application for managing loans, returns, bookings and status of devices in the equipment warehouse.	Barranquilla, Colombia <i>Jan 2021 – Jul 2021</i>

SKILLS

Programming Languages: C++, Java, Python, SQL, JavaScript, HTML/CSS
Tools: Git/GitHub, Visual Studio Code, AWS (Lambda, QuickSight, Redshift, Glue, S3), Power BI
Frameworks: Apache Hadoop, React.js, Node.js, Flask, Django, Next.js, Nest.js
Databases: MongoDB, Snowflake, MySQL, AWS Redshift
Professional Skills: Leadership, Problem-solving, Communication, Adaptability, Teamwork
Languages: Spanish (native), English (intermediate)

PROJECTS

Personal Finance Automation <i>Python, AWS Lambda, QuickSight, MariaDB</i> Automated expense tracking by extracting bank data from Gmail and processing receipt images via Telegram using AWS (Lambda, S3 and Textract). Visualized transaction data using Power BI and AWS QuickSight, and delivered live summaries via a Telegram bot.	May 2025 – Present
Master’s Thesis <i>Hadoop, Big data, Java, MongoDB, MariaDB, Hbase, Blockchain</i> I modified the source code of the Hadoop Distributed File System to introduce immutability features through Blockchain integration, ensuring the integrity of stored files. I compared the final storage size of the Hadoop Distributed File System when storing data in different storage environments, including local directories, SQL Database Systems, and NoSQL databases.	Jan 2022 – May 2025
GestionLabs <i>MySQL, Node.js, AWS, Git, Python, RFID, Teamwork</i> I developed the infrastructure in the Cloud, helped in the creation and development of the executable for mobile devices. I collaborated in the creation and development of the website, creation of the mobile application. In addition, I was present in the development of the technical and financial study of the RFID technology.	Jan 2021 – Jul 2021
