

MUHAMMED SESAY

Lanham, MD 20706 | 202-891-0302 | muhammedKamara97@gmail.com

SUMMARY

- Trained Junior Data Scientist with 3+ years of experience specializing in Statistics, Scientific Analysis and Machine Learning.
- Certificate in Data Literacy (GPA: 4.3).
- Worked with Federal Government Agencies (NSA and Pentagon) and Non-Profits (ICF International Inc.).

KEY ACCOMPLISHMENTS

- **Performance Award** – designed models utilized for troubleshooting challenging issues; outperformed 200+ Statistics professors and Big Data professionals (NCAA pool)
- **Team Competition Winner** – Kaggle "Titanic: Machine Learning" Challenge
- **The Machine Learning Conference** – Guest Panelist (Discussion about Artificial Intelligence), 2018
- **AAAI Conference** on Artificial Intelligence, 2017

AREAS OF EXPERTISE

- Data Science
- Data Collection and Evaluation
- Machine Learning
- Regression
- Image processing
- Natural language processing
- Control charting
- Advanced Systems Analysis
- System Flow Design
- Biomedical Research and Allied Health Sciences
- Project Management and Analysis Reports
- Data Visualizations
- SQL
- Python
- Technical Network Support
- Microsoft Office (Word, Excel, PowerPoint, Outlook)

PROFESSIONAL EXPERIENCE

Department of Defense, Pentagon, Arlington VA

Dec 2018 – Sept 2019

Network Engineer Intern (unpaid)

- Maintaining and administering computer networks and related computing environments including systems software, applications software, hardware, and configurations.
- Performing disaster recovery operations and data backups when required.
- Protecting data, software, and hardware by coordinating, planning and implementing network security measures.
- Troubleshooting, diagnosing and resolving hardware, software, and other network and system problems.
- Replacing faulty network hardware components when required.
- Maintaining, configuring, and monitoring virus protection software and email applications.

- Monitoring network performance to determine if adjustments need to be made.
- Conferring with network users about solving existing system problems.
- Operating master consoles to monitor the performance of networks and computer systems.
- Coordinating computer network access and use.
- Designing, configuring and testing networking software, computer hardware, and operating system software.

ICF International Inc. / Bethesda MD

April 2017 – Nov 2018

Data Scientist

ICF International, Inc. is a global consulting and technology services company. It is headquartered in Fairfax, Virginia, with approximately 5,000 employees working in more than 65 offices around the globe.

- Analyzed scientific (biomedical, allied health sciences) research project materials as needed. Collaborated with Subject Matter Experts (SME) reviewing technical information for internal projects. Implemented technical/scientific information applicable to biomedical projects.
- Developed statistical analysis **visualization** output from statistical and predictive models.
- Used **Natural language processing** for automatic summarization, discourse analysis, machine translation, conference resolution, speech recognition, etc.
- Studied how processes changed over time, plotting in time order (**control charting**)
- Performed quality assurance tasks on model codes and output.
- Built quantitative models with data and communicated results of models to stakeholders.
- Executed database queries supporting and formatting modeling inputs.

(Python, R, SQL)

National Security Agency / Fort Meade MD

May 2016 – April 2017

Data Scientist (Data Scientist Development Program-DSDP)

NSA/CSS Data Scientist Development Program is a three-year opportunity to build your data science talent, experience the breadth of data science at NSA through six- to nine-month assignments in a variety of diverse organizations, and collaborate with NSA's experts in the field of data science.

- Administered **data science** processes for high-end capital management firm. Created models for potential holdings to Fund Managers (achieved 20% better returns vs historical performance). Utilized **machine learning** tools for predicting adjusted P/E values (predicted stock price 25% better than traditional figures).
- **Data Collection** - collected data from multiple sources, exploring anomalous data (including metadata). Applied scientific process to data evaluation, performing statistical inference, and data mining. Created **data visualizations**, analytic plans, engineer supporting algorithms and solutions (execute analytic plans). Analyzed data using mathematical/statistical methods, communicated research processes as well as results to customers and leadership.
- **Regression** - determined the strength of the relationship between one dependent variable and a series of other changing [independent] variables

(Python, R, SQL, C++, JavaScript, Hadoop)

Chronological Experience

June 2016 – Oct 2016	Education: Certificate in Data Literacy, Anne Arundel Community College (see below)
May 2016 – April 2017	Professional Work: NSA, Fort Meade MD, Data Scientist
Aug 2016 – March 2017	Education: Microsoft Professional Program for Data Science (see below)
Apr 2017 – Nov 2018	Professional Work: ICF International, Bethesda MD, Data Scientist
Dec 2018 – Present	Education: CompTIA - Network Engineering and Cyber Security
Dec 2018 – Sept 2019	Unpaid Internship: US Department of Defense, Pentagon, Arlington VA,

Network Engineer

EDUCATION

2016

Anne Arundel Community College / Hanover MD

June 2016 – Oct 2016

Certificate in Data Literacy (GPA: 4.3)

Relevant Coursework:

Computer Database Management Systems | Business Statistics | Data, Sampling and Analytics

- **Data and Analysis Project Seminar**-Completed senior project (predict waitress tips at busy Boston restaurant) utilizing Decision trees, Regression models and SVM.
- **Served as President**-Artificial Intelligence Club.

2016 – 2017 Microsoft Professional Program for Data Science

- Coursera Johns Hopkins University – Data Science
- Metis Data Science Training – Introduction to Data Science
- Coursera University of Michigan – Applied Data Science with Python Specialization
- Dataquest courses – Pandas & NumPy Fundamentals, Python, Exploratory Data Visualization, Storytelling Through Data Visualization, Data Cleaning and Analysis, Command Line, Natural Language Process, Machine Learning, Decision Trees, SQL, Databases.
- edX MIT (Massachusetts Institute of Technology) – Statistics
- edX MIT (Massachusetts Institute of Technology) –Data Science MicroMasters
- Harvard online – CS109 Data Science
- Udemy – Python for Data Science
- Udemy – Machine Learning Bootcamp

2018 – 2019 CompTIA courses

- Network +
- Comptia +
