

Shahla Jahangard

Business Analyst | Data Analyst

Eager to Learn and Optimistic

Experienced Data Scientist with over 5 years of expertise in data analytics, statistical modeling, machine learning, and business analysis. Proficient in SQL, Python, R, and statistical techniques such as regression, classification, and time series analysis. Adept at translating complex data insights into actionable business strategies and driving improvements through data-driven decision-making. Strong communicator, capable of presenting findings in a clear, concise manner to stakeholders, and experienced in defining KPIs, customer segmentation, and funnel analysis. Passionate about solving business problems through advanced data science methodologies.

Core Skills

- Data Science & Analytics: Statistical Analysis, Predictive Modeling, Regression, Classification, Time Series Analysis
- Programming & Tools: Python, SQL, R, Alteryx, SPSS, PowerBI
- Machine Learning: Supervised & Unsupervised Learning, Predictive Analytics, Data Mining
- Business Intelligence: KPI Definition, Funnel Analysis, Customer Segmentation
- Reporting & Visualization: Dashboard Creation, Ad-Hoc Reports, Data Discovery, Data Quality Checks
- Communication & Storytelling: Translating Complex Data into Business Insights, Executive Presentations
- Problem-Solving: End-to-End Quantitative Thinking, Solution-Oriented Mindset

Professional Experience

Business Analyst (Data Analyst)

Venture Global LNG | Rosslyn, VA | Jan 2023 – Sep 2024

- Utilized SQL and Python to analyze large datasets and create predictive models, helping stakeholders make data-driven decisions.
- Applied statistical methods (regression, classification) to perform exploratory and predictive analyses, leading to process optimization and improved financial performance.
- Defined and tracked KPIs for financial operations, providing actionable insights that guided decision-making and improved business outcomes.
- Collaborated with cross-functional teams, presenting data-driven solutions in clear, concise reports and presentations, translating complex technical findings into business insights.
- Developed dashboards and reports to monitor key metrics, ensuring accurate, real-time data availability for decision-making.

Revenue Assurance Analyst

TEOCO Telecommunications | Fairfax, VA | Jun 2021 – Dec 2022

- Conducted data analysis using Python, R, and SQL to identify revenue recovery opportunities and optimized pricing strategies.
- Used regression and classification models to segment customers and predict future revenue trends, delivering insights that enhanced operational efficiency and customer satisfaction.
- Delivered ad-hoc reports and visualizations, ensuring high data accuracy and enabling management to make informed decisions.
- Collaborated with internal teams to perform data quality checks, improving the reliability of reports used for business analysis.
- Worked closely with business leaders to develop actionable recommendations that improved client revenue and profitability.

Graduate Teaching Assistant

George Mason University | Fairfax, VA | Aug 2019 – May 2021

- Assisted students in learning key data analysis techniques, including regression, classification, and time series analysis.
 - Developed coursework and instructional materials that illustrated the application of data science concepts in business and finance.
 - Led sessions and guided students on the use of R and Python for statistical analysis and predictive modeling, fostering a deeper understanding of data science techniques.
-

Education & Certifications

Master of Statistical Science

George Mason University, USA (Full Scholarship)
2019 – 2021

Master of Mathematical Statistics

Isfahan University of Technology, Iran (Full Scholarship)
2015 – 2017

Bachelor of Statistics

Shahid Beheshti University, Iran (Full Scholarship)
2009 – 2015

Certifications:

- Data Analysis with Python – **IBM**
 - Alteryx Foundational Micro-Credential
 - SQL – **UCDAVIS**
-

Publications

- "Odd Hyperbolic Cosine Exponential-Exponential (OHC-EE) Distribution" (Published 2019, cited 5 times)
- "A New Family of Lifetime Distributions in Terms of Cumulative Hazard Rate Function" (Published 2019, cited 3 times)
