Education

Northeastern University

Master of Science in Information System

Sept 2022 - Dec 2024

Boston, MA

SRM Institute of Science and Technology

Bachelor's of technology in Computer

Jul 2018-May 2022

Kattankulathur, Chennai

Experience

ML Engineer

BrainX AI

Feb 2025 – Present

Boston, MA

- Sampled and transformed 820K-row MedConceptsQA dataset using **BigQuery** and **Cloud Storage** for clinical model evaluation
- Assessed **MedMobile**, **Phi-4** and **MediPhi** models on QA and summarization tasks using expert-labeled benchmarks
- Automated evaluation using **Exact Match**, **F1**, and **ROUGE** to validate model accuracy on clinical guideline-based data
- Built a clinical QA evaluation pipeline using **GPT4o** to benchmark LLM responses against expert-reviewed medical answers

Data Analyst

WhoozCooking Inc,

Jan 2024 – May 2024

Boston, MA

- Engineered **recommendation system** using user preference data, integrated DoorDash and Roadie APIs to optimize delivery routes, cutting consumer delivery costs by **10%**
- Analyzed consumer behavior data, validated with purchase history, boosting recommendation accuracy, and increasing net sales by **3-5%**
- Built interactive dashboards using **Tableau** and **Power BI**, enhancing cross-departmental data understanding. Documented processes in **Confluence**, effectively communicating marketing strategy impacts to stakeholders

Data Visualization Analyst

Saint Louise University and Globalshala

May 2021 - Jun 2021

Delhi, India

- Audited and cleaned marketing data using **Excel**, ensuring accuracy and consistency for analysis and visualization
- Created visualizations using **Tableau** to identify trends and insights, contributing to improvement in click-through rates by **10%**
- Improved ad campaign efficiency by **15%** by identifying performance gaps and aligning with stakeholder goals

Data Analytics

Brainvire Infotech inc,

Oct 2020 - Jan 2021

Ahmedabad, India

- Analyzed complex **time-series** sales data for 50+ stores, improving supply chain efficiency and inventory management through accurate monthly sales forecasting
- Applied time-series models (**ARIMA**, **ARMA**, **AR**, **MA**) to predict product sales, reducing stockouts by **5-8%**
- Championed **Agile** methodologies across cross-functional teams, leading to an improvement in project delivery timelines

Academic Projects

Personalized Flight Recommendation System and price forecasting

Dec 2023

- Developed a user-friendly Airline Recommendation System using open APIs and **Databricks SQL**, Amazon **AWS S3** warehouse, integrating preferences, historical data, and real-time factors for efficient data handling
- Implemented content-based filtering model and ARIMA (**85%** accuracy) for price forecasting, ensuring reliable predictions using **Dickey-Fuller Test**
- Designed an interactive **Streamlit** app to optimize flight choices, and provide hyper-personalized recommendations

Streamlit-Snowflake Marketing Dashboard Prototype and Integration

Oct 2023

- Deployed an ML-powered Streamlit app for **anomaly detection**, customer value computation, and **ROI prediction**
- Executed **ETL** processes in **Snowflake**, performed **EDA**, and created Python stored procedures for real-time predictions
- Implemented regression models (Random Forest, XGBoost) with **88%** accuracy to ensure precise and reliable forecasting

Santander Customer Satisfaction Prediction

Dec 2022

- Examined Santander Bank's dataset to predict client dissatisfaction, addressing data imbalance with **SMOTE** and reducing dimensionality using **PCA** (371 to 39 components)
- Developed ensemble model **logistic regression**, **random forest**, **XGBoost** with **hyperparameter tuning**, achieving **89%** accuracy
- Deployed the model to effectively predict customer dissatisfaction, enhancing decision-making for client retention strategies

Skills

Languages:

Python, C, C++, java, MySQL

Machine Learning Framework:

Pandas, NumPy, Scikit Learn, H2O, PyTorch, Tensorflow, Keras, Matplotlib, Seaborn, LLM, RAG

Business Intelligence Tools:

Tableau, PowerBI, Heap, MS Excel, Power Point, Adobe

Cloud / Tools:

Streamlit, Atlassian: JIRA, Confluence, AWS S3, DataBricks, Snowflake, Google BigQuery, GitHub
