

Education

Binghamton University, State University of New York

Master of Science, Management Information System, Applied Data Science, **GPA: 3.7**

May 2025

SPPU, India

Bachelor of Technology, Information Technology, **GPA: 3.2**

May 2020

Skills

Data Analytics & Visualization: Tableau, Data Storytelling, Power BI Dashboard Development

Programming & Scripting: Python, DAX, SQL, Core Java

Databases & Tools: MySQL, PostgreSQL, Oracle SQL Developer, PgAdmin, SQL Shell

Project Management: Agile, Scrum, Jira

Business Intelligence Tools: Microsoft Azure, Power BI

Framework & Repository: Django, Git, GitHub, SVN

Data Modeling & Reporting: ETL, Data Pipelines, Dashboard Creation

Work Experience

Infosys

Pune, India

Senior System Engineer

April 2021 - May 2023

- Developed TIBCO middleware solutions for Care First BCBSA, streamlining communication across 5+ applications, reducing data latency by 30%, and enhancing system performance
- Conducted root cause analyses and API testing using SOAP UI, identifying inefficiencies and implementing solutions that minimized downtime by 20% across SIT, TT, and production environments
- Implemented complex SQL queries using Oracle SQL Developer to extract, transform, and analyze data from large datasets, improving data retrieval efficiency by 35% and supporting real-time reporting needs
- Gathered and documented business requirements, translating into functional specifications, leveraging Agile Methodology to ensure alignment with goals and improving sprint completion rates by 15%
- Influenced in daily Scrum calls, representing the team for D2D activities and addressing production issues, leading to a 25% reduction in resolution time and ensuring minimal disruption to operations
- Facilitated system testing and implementation by preparing documentation, identifying risks, and collaborating with multiple teams to resolve issues, ensuring Agile alignment and achieving a 95% on-time delivery rate
- Collaborated with cross-functional teams using Agile methodologies throughout the SDLC lifecycle, delivering projects on time and improving team productivity by 15%

Persistent Systems

Pune, India

Machine Learning Developer Intern

Jun 2019 - December 2019

- Enhanced and optimized existing APIs using Python, PyCharm IDE, and SQL Developer, making fully functional and improving workflows to boost operational efficiency
- Coordinated with project managers and different teams to identify business requirements and translate into machine learning solutions, achieving a 40% improvement in object recognition accuracy

Academic Projects

Car Sale Insights (Power BI, SQL, DAX)

November 2024- December 2024

- Executed ETL processes on 25,000 rows of sales data, designing optimized data models and reducing query times by 35%
- Constructed real-time dashboards, identifying sales trends that increased stakeholder decision-making efficiency by 25%

Stock Market Prediction (Python, Machine Learning)

April 2024 – May 2024

- Built predictive models using technical indicators like RSI, Bollinger Bands, and VWAP, achieving a 15% increase in model reliability and enhancing forecasting accuracy by 25%
- Crafted targeted data transformations that identified critical performance indicators, resulting in the creation of more resilient predictive models which increased overall forecasting accuracy by 25%, streamlining analysis processes

COVID Data Survey (Power BI, Data Visualization, DAX)

January 2024 – February 2024

- Designed interactive dashboards and data visualization pipelines, reducing analysis time by 25% and increasing report interpretation speed by 40%
- Created advanced data relationships and hierarchies using DAX, enabling drill-down insights for geographical and demographic COVID trends

Voluntary Experience

JJ Plus Hospital

Aurangabad, India

Healthcare Tech Support Volunteer

June 2020 - February 2021

- Supervised medicine inventory using Excel to support healthcare staff during the COVID-19 pandemic

Certification

Microsoft Certified Power BI Data Analyst Associate

August 2024

Microsoft Certified Azure Data Fundamentals

August 2024

TIBCO Certified Associate business Works 6

April 2022
