

SHANVI MEHTA

Chicago,IL(open to relocation) | +1(872) 279-7627 | smehta63@uic.edu | [linkedin](#)

PROFESSIONAL SUMMARY

Detail-oriented Analyst skilled in data analysis, visualization, and statistical modeling using Python, SQL, Tableau, Power BI and Excel. Experienced in data management, ETL, and generating actionable insights that drive data-driven decision-making. Adept at problem-solving, with strong attention to detail and proactive approach to learning new technologies.

EDUCATION

University of Illinois at Chicago <i>Master of Science in Management Information Systems</i>	Chicago,US GPA: 3.82 / 4.0
University of Mumbai <i>Bachelor of Engineering in Computer Engineering</i>	Mumbai,India GPA: 4.0 / 4.0

EXPERIENCE

Power BI Developer JobsiteIQ	Jan 2025 - May 2025
- Built a mobile Power BI dashboard processing 10K+ rows, Improved business performance by cutting decision time by 25%. - Optimized ad hoc queries using DAX formulas to enhance BI effectiveness with KPIs. - Applied data modeling and statistical techniques for scalable and structured data analysis. - Diagnosed reporting inefficiencies and implemented SSRS and interactive visuals, increasing accuracy by 40%.	
Graduate Teaching Assistant Managerial Studies, University of Illinois at Chicago	Sept 2024 - May 2025
- Supported 500+ students by integrating SWOT analysis into Blackboard and providing technical support. - Applied organizational skills to support class operations, assist with administrative tasks, and enhance student performance.	
Data Analyst Faculty Affairs, University of Illinois at Chicago	Mar 2024 - May 2025
- Verified faculty and course data across 80+ departments using Excel and statistical tools to ensure accuracy. - Improved survey response rates by 20% by optimizing data collection through Class Climate software. - Led process improvements to reduce reporting errors and enhance data accuracy.	
GenAI Intern 7Qubes, Chicago	Sept 2023 - Dec 2023
- Contributed prompt engineering solutions while upholding data ethics and privacy standards in a start-up environment. - Implemented a LLM model using ChatGPT 3.5 Turbo, enhancing data usability and reducing admin workload by 50%. - Saved \$5,000 in marketing costs by optimizing AWS data use and leveraging free outreach resources.	
Data Science Intern Skill Safari	Jun 2021 – Dec 2021
- Developed and optimized ML models (classification, regression) to boost predictive accuracy across for business functions. - Applied statistical analysis and data wrangling techniques to clean and prepare datasets, ensuring model quality. - Collaborated in Agile environment, delivering results on time while refining problem-solving and leadership skills.	

KEY PROJECTS UNDERTAKEN

Business Data Visualization (American Airlines)
- Extracted and pre-processed 1M+ BTS flight records using Excel and Tableau, ensuring 100% data accuracy. - Conducted research and interpreted key trends in delays, cancellations, and peak travel periods. - Demonstrated adept presentation skills and professional development in business analysis. - Created dashboards with key insights, using strong communication to drive operational improvements at American Airlines.
AI-based Yoga Pose Recommendation System
- Led a cross-functional team of 4 to develop a website for personalized yoga pose recommendations, achieving 98% accuracy. - Conducted software testing and debugging to ensure product quality. - Focused on application engineering, relationship management, and software modeling for product innovation.
Marketing Analysis of Retail Store
- Performed RFM-based customer segmentation to identify loyal, high-value, and churn-risk customers for tailored marketing. - Used Power BI, Python, and MySQL Server to extract, clean, and visualize sales data and customer behavior patterns. - Integrated CRM-driven insights to optimize customer engagement and support data-informed retention strategies.

SKILLS

Programming Languages : Python, R, MySQL, PostgreSQL, MongoDB, MS SQL Server, MATLAB, Pytorch, Tensorflow, Keras, Scikit-learn, Spark, C, C++, PHP, Java, HTML, CSS, DAX, SAS

Analytics and Business Intelligence Tools : Tableau, Power BI, Visio, JIRA, Kanban, Confluence, SharePoint, Excel, MS Office Suite , Git, Streamlit.

Cloud & IT Skills : AWS, Azure, Linux, Oracle, ad hoc, Troubleshooting, Networking, GCP, Snowflake, Quality Assurance.
