Business Intelligence Analyst with a Master of Science in Information Technology and 4 years of experience transforming data into actionable insights that drive strategic business decisions. Skilled in statistical analysis, data visualization, and cross-functional collaboration, I specialize in translating complex datasets into clear, impactful narratives for both technical and non-technical stakeholders. My recent work has focused on compensation analytics and operational strategy, where I applied BI methodologies to assess pay structures, analyze market data, support internal equity initiatives, and streamline reporting workflows. I have supported compliance and audit readiness efforts, documented internal processes, and creating dashboards. I am now seeking to continue my career in a role that allows me to leverage my business analytics expertise to support reporting needs, risk management, and data-driven strategy execution.

JULY 2023-JULY 2025

Business Intelligence Analyst | Payscale/Payfactors (Insight Global) | Remote work environment (Contract)

- Developed and maintained interactive dashboards in Tableau, ensuring data accuracy, security, and optimal performance through regular server administration and monitoring.
- Built custom reports and dashboards for over 100 stakeholders, including 40+ non-technical users, enabling accessible insights and storytelling from complex datasets.
- Conducted thorough data cleansing, standardization, and transformation across 100+ projects to meet audit-readiness and compliance standards.
- Delivered compelling, data-backed presentations using SQL, third-party market data, and R programming, influencing decisions around compensation strategy and pay equity.
- Partnered cross-functionally across HR, Finance, and Operations, utilizing tools like JIRA and Confluence to drive collaborative projects and performance measurement initiatives.
- Supported internal documentation management and process improvement efforts that strengthened operational compliance and reporting integrity.
- Demonstrated advanced analytical thinking and a strong understanding of quality assurance, ensuring high-level accuracy in all data reporting and insight generation.
- Utilized JIRA for managing technology support tickets, resolving data issues, addressing bugs within dashboards, and tracking product-related requests.
- Used SharePoint for documenting team processes, brainstorming ideas, and referencing internal guides and strategic documentation.
- Employed Confluence to centralize knowledge sharing, track project updates, and document cross-functional collaboration efforts related to BI workflows and analytics initiatives.

AUGUST 2022 – FEBRUARY 2023

Sales Operations Analyst | Amarok | Columbia, SC (Contract)

- Streamlined internal business processes and supported sales forecasting through SQL-driven data pipelines and custom dashboards using Tableau and Salesforce.
- Created and managed ROI visuals, KPIs, and asset tracking dashboards, contributing to a 20% increase in sales productivity.
- Developed SOPs and training documentation used cross-functionally across operations, sales, and marketing teams, improving organizational knowledge management.
- Implemented a follow-up tracking system managing over 2,000 leads using CRM tools integrated with visualization software.
- Leveraged advanced Excel functions, workflow analysis, and cross-departmental collaboration to drive a 15% improvement in sales case prep time.

AUGUST 2022 – FEBRUARY 2023

Data Analyst | Upwork Freelancer | Columbia, SC

- Conducted data validation and database integrity checks that increased accuracy and improved coverage system performance.
- Automated manual tasks by developing efficient SQL queries, reducing repetitive work by 20%.
- Performed workflow audits, identifying inefficiencies and contributing to enhanced tracking and resource allocation.
- Applied problem-solving and analytical skills to deliver high-quality insights and recommendations for small business clients.

JULY 2019 – MARCH 2021

Sales Analyst | Teleperformance (United Healthcare) | Columbia, SC

- Analyzed Net Promoter Score (NPS) and other feedback data using Excel, PowerPoint, and CRM platform (Salesforce) , resulting in a 20% boost in customer satisfaction.
- Tracked and evaluated KPI metrics to monitor sales performance, enabling a 17% increase in team productivity.
- Maintained accurate performance documentation and quality reviews in the CRM, strengthening consistency in reporting.
- Collaborated with quality assurance teams to reinforce data integrity and support service improvement initiatives.
