

Around 3 years of experience as a Business Analyst with expertise in transforming business process requirements into Functional Requirements, Functional Specifications, Business Process Mapping, and Modeling for application development. Proficient in diverse methodologies, including SDLC, Agile, and Waterfall, with the ability to adapt to varying project needs and lifecycles. Well-versed in Business writing skills in writing project documentation like Business Requirements Documents (BRD), Functional Requirement Documents (FRD), and Specification Requirements Documents (SRS). Adept at conducting GAP Analysis, SWOT Analysis, Cost Benefit Analysis, Risk Analysis, Impact Analysis, and modeling Businesses Processes

EXPERIENCE

BUSINESS ANALYST | JUN 2023 – CURREN

Syneos Health, USA

- Executed projects using Agile Methodology, employing iterative and incremental development approaches.
- Utilized MS SharePoint for efficient document management and collaboration, boosting team productivity.
- Demonstrated proficiency in advanced MS Excel functions such as Pivot Tables, VBA, H & V-LOOKUPS for data analysis and reporting.
- Conducted comprehensive analyses including cost/benefit, GAP, and SWOT analysis to drive strategic decision-making.
- Leveraged Google Analytics, Stata, and Adobe Analytics for web and business data analysis, extracting insights for optimization.
- Manage projects using MS Project and Jira, resulting in a 10% increase in project completion ahead of schedule and optimal resource utilization. Migrated all the existing Python scripts to GitHub using Git Bash, improving work efficiency by 25%.

BUSINESS ANALYST | FEB 2019 – AUG2021

CitiusTech, India

- Utilized Agile methodologies to effectively assist with the planning and implementation of business and software development plans
- Created and presented a business requirement document (BRD), a system requirement specification (SRS), and a functional requirement document (FRD)
- Integrated Tableau data-driven alerts and automated notifications, enabling monitoring of key metrics and decreasing response time to critical business events by 75%
- Streamlined reporting tools for Excel and Power BI that use sophisticated queries to pull data from SQL data sources
- Allocated Confluence templates and standardized documentation practices to ensure consistency and improved efficiency in capturing and sharing information across projects
- Included HP Quality Centre as a database for requirement analysis, test case design, test case execution, bug tracking and reporting

SKILLS

Methodology:	SDLC, Agile, Waterfall
Language:	SQL, R, Python
Reporting & Visualization Tools:	MS Project, MS Excel, MS Word, MS Outlook, MS Access, MS SharePoint, PowerPoint, Data analysis, Operations analysis, Tableau, Power BI
Documentation:	FRD, BRD, SRS, Use Case Document, User Stories, UML, RTM
Databases:	SQL Server, MySQL, Oracle, PostgreSQL
Analysis:	Cost/benefit analysis, Impact analysis, GAP analysis, Risk analysis, SWOT analysis
Tracking / Other Tools:	GIT, JIRA, Test Director, Rational Requisite Pro, Microsoft Visio, HP Quality Center, JAD, UAT, Rational Clear Quest, MS Office, ERP, CRM, SAP, Salesforce, Figma
Soft Skills:	Problem-solving, planning, organizational, Verbal Communication skills, Analytical, Time Management, Written, Teamwork, Detailed-Oriented, Work Collaboratively
Operating Systems:	Windows, Linux

EDUCATION

Master of Science | Computer and Information Sciences

SEP 2021- MAY 2023

Bachelor of Engineering: | Computer Sciences

AUG 2017 - MAY 2021
