CAREER PROFILE

I'm a motivated professional with over 4 years of experience in business analysis, data work, project coordination, and operations. I'm currently studying for my Master's in Information Systems and have practical skills in tools like Power BI, Tableau, SQL, Python, and cloud platforms like Azure and AWS. I've helped improve processes, manage projects, and turn data into useful insights that support smart business decisions. I enjoy using data and technology to solve problems and help businesses grow.
