

SHIVANI PANDETI

NY, United States | (315) 575-8812 | shivanipandeti0904@gmail.com | [LinkedIn - Shivani Pandeti](#)

EDUCATION

Syracuse University, School of Information Studies

Master of Science in Applied Data Science

Syracuse, NY

May 2026

Coursework: Data Administration, Statistical Inference, Machine Learning, Business Analytics, Data Analysis, Financial Analytics, Data Visualization, Cloud Computing

University of Mumbai

Mumbai, India

Bachelor of Engineering, Information Technology

May 2024

Coursework: Big Data & Analytics, Data Mining & Warehousing, Business Intelligence, Data Science, Artificial Intelligence, Neural Networks, Database Management, NLP

WORK EXPERIENCE

TekAfforde Solutions Pvt Ltd.

Bangalore, India

Data Science Intern

May 2023 – December 2023

- Developed and optimized SQL queries (joins, CTEs, window functions, subqueries) to clean and transform 30,000+ records in MySQL/PostgreSQL, improving data consistency and reducing preprocessing time by 20%
- Performed exploratory data analysis (EDA) using Python (Pandas, NumPy) and designed visualizations in Matplotlib and Seaborn to track performance metrics across multiple projects
- Conducted Implemented data validation checks and maintained detailed documentation, achieving 88%+ dataset accuracy and ensuring smooth integration into application workflows

Home Revise Education Pvt Ltd.

Mumbai, India

Back-end Developer Intern

December 2022 – March 2023

- Maintained and updated the Home Revise Quiz application database using MySQL and PHP, ensuring accurate storage and retrieval of 10,000+ records
- Added and managed 500+ new quiz questions, performing validation and categorization to improve content organization
- Assisted with data analysis and reporting using SQL queries and Python (Pandas), helping the team track question performance and user engagement

SKILLS

Programming & Databases: SQL (MySQL, PostgreSQL, MS SQL Server), Python (Pandas, NumPy), R

Data Analysis & Visualization: Excel (Pivot Tables, VLOOKUP, Macros), Tableau, Power BI, Dashboards, Data Cleaning & Transformation, Exploratory Data Analysis (EDA), Statistical Analysis, Hypothesis Testing, Business Analytics, Reporting & KPI Tracking

Data Management & Engineering: ETL Pipelines, Data Warehousing, Big Data Systems, AWS (S3, RDS, Lambda, IAM), Data Governance, Cloud Management, Linux

ML & AI: Regression Models (Linear, Logistic), Decision Trees, Random Forest, XGBoost, Predictive Modeling, Time Series Forecasting

Collaboration & Tools: Git/GitHub, Jupyter Notebooks, Streamlit, Flask, Microsoft Office

PROJECTS

Bank Customer Churn Prediction

- Built a predictive analytics model on a dataset of 10,000+ customers using Python (Logistic Regression, Decision Trees, Random Forest, XGBoost), achieving 86.8% accuracy in identifying potential churners.
- Conducted data cleaning, feature engineering, and exploratory data analysis (EDA) to uncover key churn drivers such as credit score, age, and account activity
- Delivered customer behavior insights and churn risk reports to guide targeted retention strategies, enabling management to take data-driven actions to reduce churn
- Publication: [IJAECs \(July 2024\)](#)

Comprehensive Bank Loan Performance Dashboard

- Designed and implemented interactive Tableau dashboards to track loan portfolio performance, KPIs, and borrower demographics, enhancing decision-making efficiency for management
- Applied calculated fields, drilldowns, and parameter controls to analyze lending trends, regional activity, and customer behavior, providing actionable business insights to stakeholders
- Automated loan classification (Good vs Bad), streamlining reporting processes and improving risk analysis accuracy by 20%

Medical Inventory & Warehouse Management System

- Designed and implemented a relational SQL database to manage medical inventory and warehouse logistics, ensuring accurate tracking of stock levels, procurement, and distribution
- Developed stored procedures, triggers, and optimized SQL queries to support automated stock replenishment, procurement cycles, and reporting efficiency
- Generated analytical reports on inventory turnover, supplier performance, and stock forecasting, enabling data-driven decision-making in supply chain and resource planning

LEADERSHIP & COMMUNITY ENGAGEMENT

Student Volunteer, National Service Scheme

September 2021 – July 2023

- Organized 3+ blood donation camps, multiple environmental drives (tree plantation, plastic collection), and a fundraising marathon, raising donations for community causes and demonstrating strong leadership, organizational, and teamwork skills
