EDUCATION

Northeastern University, Boston, MA Sept. 2023 – Dec. 2025
Master of Science in Computer Science GPA: 4.0/4.0
Relevant Courses: Program Design Paradigm, Algorithms, Distributed Systems, Artificial Intelligence, MLOps

Dr. A.P.J Abdul Kalam Technical University, Lucknow, India Aug. 2016 – May 2020
Bachelor of Technology in Computer Science GPA: 8.26/10.0

TECHNICAL SKILLS

Programming: Java, Python, SQL, JavaScript, TypeScript, HTML
Databases: PostgreSQL, MySQL, MongoDB, Oracle DB, Redis
DevOps and Cloud: AWS (EC2, S3, IAM, SageMaker, RDS, EBS, SNS, SQS), Azure, Kubernetes, Docker, Jenkins
Tools and Frameworks: Spring Boot, RabbitMQ, Maven, JUnit, SonarQube, Git, SOAP API, XML, React.js, CSS
Software Development: Object Oriented Design, TDD, Agile, Scrum, Retrospective, Sprint
Certifications: [AWS Certified Solutions Architect - Associate](#), [AZ-900 Microsoft Azure Fundamentals](#)

WORK EXPERIENCE

Northeastern University | Research Assistant | Boston, USA May. 2025 – Aug. 2025

- Deployed 6+ TensorFlow and PyTorch models on AWS SageMaker with custom inference scripts for model serving.
- Built and hosted a Flask web app on AWS EC2 to process cancer biopsy images, integrating SageMaker endpoints for low-latency predictions, storing outputs in AWS S3 and delivering real-time results to 15 pathologists.

Wasabi Technologies | Cloud Engineer Co-op | Boston, USA Jan. 2025 – Aug. 2025

- Created a Python Kivy-based desktop application to estimate egress costs for Wasabi storage accounts, helping 12+ enterprise customers monitor data transfer patterns and detect anomalies for improved cost visibility.
- Streamlined customer communication by developing a mass mailer system using Mandrill SMTP and Pandas to deliver critical updates to over 1,300 customers, ensuring timely notifications.

Tata Consultancy Services | Software Engineer | New Delhi, India Dec. 2022 – Jul. 2023

- Optimized REST API performance by building a caching solution using Java, Spring Boot and Azure Redis Cache, resulting in a 40% improvement in response time for frequently accessed customer records.
- Modernized the caching solution into Time and HTTP Triggered Azure Functions, leveraging Google Guice for dependency injection, accelerating deployment by 18% and enhancing scalability.

Capgemini | Software Engineer | Mumbai, India Sept. 2020 – Jul. 2022

- Led migration of 20+ legacy microservices to Kubernetes using Jenkins CI/CD for automated Docker builds and container deployments with Harbor-managed images, boosting service reliability by 35%.
- Designed and implemented an automated ITSM queue monitoring solution with Apache Camel ServiceNow utility, cutting SLA breaches by 90% and saving 2 FTE in manual effort.
- Developed a multitenant Pub/Sub microservice to automate conversion of 3K+ daily Splunk/Dynatrace monitoring events into subscription-based ITSM incidents, cutting missed system alarms by 40% and expediting resolution.

ACADEMIC PROJECTS

Think Flow - "Winner: MLH Civic Tech Hackathon" | *React.js, Node.js, MongoDB, Ollama* Feb. 2025 - Feb. 2025
An interactive learning tool leveraging DeepSeek-R1 (Ollama) for personalized user interactions and LLM-generated mind maps. Features a Streamlit and React.js UI, AI-generated flashcards and Google TTS to support auditory learners.

Career Cupid | *React.js, Node.js, Express.js, MongoDB, Material UI, Bootstrap* Jan. 2024 - Apr. 2024
A web portal enabling job seekers to match to relevant opportunities, while also allowing recruiters to post jobs.

Frame Works | *Java, Swing, JUnit* Sept. 2023 - Dec. 2023
The app features a Swing GUI, interactive TUI and batch script processing for image manipulation, supporting JPG, PNG and PPM formats. Implemented Command Design Pattern and MVC architecture for structured code and flexibility.

GrabASeat | *Java, Hibernate, Angular, Oracle DB, Mockito, Jenkins* Jan. 2020 - Apr. 2020
An online travel reservation platform built with Java and Angular UI, enabling users to search bus routes, book tickets and manage reservations. Leveraged Git for version control, Mockito for unit testing and SonarQube for code quality.
