Austin, TX | (737)-336-2974 | zshivani180@gmail.com | www.linkedin.com/in/shivanizala180

EDUCATION

The University of Texas at Dallas

May 2025

Bachelor of Science, Computer Science

Relevant Coursework: Data Structures & Algorithms, Distributed Systems, Software Engineering, Computer Architecture, Operating Systems, AI, Probability & Statistics, Testing & Verification, Linear & Nonlinear Optimization

TECHNICAL SKILLS

Programming Languages: C, Java, C++, JavaScript, Python, HTML, CSS, C#

Frameworks & Tools: Selenium, JUnit, TestNG, Manual & Automated Testing, Debugging, Bug Tracking, Linux, React, Node.js, Firebase, AWS, Docker, Git, GitHub, Visual Studio Code, Android Studio, Figma

Databases: SQL, NoSQL (MongoDB), Database Design, Relational Modeling, Query Optimization

CERTIFICATES

Career Essentials in Generative AI by Microsoft

- Acquired foundational knowledge in generative AI, including understanding core AI models, functionalities, and ethical considerations in AI applications.
- Gained hands-on experience with Microsoft 365 Copilot and generative AI tools, enhancing efficiency in professional tasks through AI-driven solutions.

Google AI Essentials

- Enhanced productivity by leveraging generative AI tools for tasks such as idea generation, content creation, and workflow acceleration while mastering prompt engineering techniques.
- Developed a strong understanding of responsible AI usage, including identifying and mitigating biases and ensuring ethical AI applications in the workplace.

Azure AI Fundamentals by Microsoft, Ongoing

- Gained foundational understanding of AI concepts including machine learning, computer vision, natural language processing, and responsible AI principles.
- Demonstrated ability to identify and evaluate Azure AI services for common business scenarios.

Azure AI Engineer Associate by Microsoft, Ongoing

- Designed, implemented, and deployed AI solutions using Azure Cognitive Services, Azure Cognitive Search, and Azure OpenAI Service.
- Applied machine learning models and integrated AI capabilities into applications while ensuring scalability, performance, and ethical AI practices.

PROJECTS EXPERIENCE

Personal Portfolio, Full Stack Developer

Ongoing

- Building a responsive full-stack website with my achievements throughout the years in the form of my portfolio
- Applying object-oriented design principles and RESTful APIs to deliver scalable and maintainable code
- Skills: JavaScript, Node.js, MongoDB, Angular.js, and React

AI Chatbox, Data and Front-End Developer

April 2025

- Guides customers through the ordering process, provides menu information, validates inputs, and allows order modifications, all while maintaining a natural and engaging interaction.
- Skills: React, TypeScript, Vite, Node js, Mongo DB, Open AI API

Harmony, Front-End Developer

November 2023

- Role: Engineered the front-end interface for an AI-powered risk management platform during a 24-hour hackathon, focusing on usability and performance and including AI by using OpenAI
- Skills: React, HTML, CSS, JavaScript, AI Integration, User-Centered Design, Rapid Prototyping,

Naturely, Front-End Developer

December 2024

- Role: Designed and developed an accessible mobile app aimed at helping people with disabilities navigate national parks, using Figma for high-fidelity wireframes and user flows.
- Skills: Figma, User Interface Design, Accessibility, Agile Development, Reactjs

WORK EXPERIENCE

Housing Operations, Student Inspector

August 2023 – September 2024

- Conducted detailed inspections of student housing units to ensure compliance with safety, maintenance, and operational standards.
- Documented inspection findings, coordinated with contractors, and supported timely resolution of facility issues to maintain high-quality living conditions.

EXTRACURRICULARS

Women Engineer Hackathon, Experience Director

- Directed participant experience for 300+ attendees, coordinating workshops, mentorship, and sponsor engagement with a team of 4 coordinators

Accounting of Computer Machinery, Industry Coordinator

- Built partnerships with tech companies to host career panels and networking events and different workshops for 100+ students.

Women Who Code, Event Organizer

- Planned and executed technical workshops and coding events, increasing member engagement by 25%.

User Experience Club, Member

- Collaborated with peers on usability critiques and design challenges, applying UX principles to real-world projects.

Artificial Intelligence Society, Member

- Engaged in discussions and demos on emerging AI trends, contributing to research-focused projects and study groups.
