SUMMARY

- Business Analyst with approximately 5 years of experience in business process analysis, requirements gathering, and data-driven decision-making.
- Skilled in developing **BRD**, **FRD**, and **SRS** while creating **Use Case Diagrams**, **Process Flows**, and **RTM** to support system development.
- Adept at conducting **GAP**, **Cost-Benefit**, **Risk**, and **Impact Analyses** to optimize business performance.
- Experienced in **Agile**, **Waterfall**, and **Scrum** methodologies, with hands-on expertise using **Jira**, **Confluence**, and **MS Project**.
- Proficient in data analysis and visualization using **Tableau**, **Power BI**, **SQL**, **Python**, and **Excel (Pivot Tables, VLOOKUP, Macros)**.
- Familiar with cloud technologies (AWS, Azure, GCP) and version control systems (Git, GitHub) for scalable system management.
- Strong stakeholder collaboration and requirement elicitation skills, with experience using Figma, Lucidchart, and Rational Rose.

SKILLS

Business Analysis & Documentation: BRD, FRD, SRS, RTM, Use Case Diagrams, Process Flows, UAT

Project Management & Methodologies: Agile, Waterfall, Scrum, SDLC, Jira, Confluence, MS Project, SharePoint

Data Analysis & Visualization: Tableau, Power BI, SQL, Python, Excel (Pivot Tables, VLOOKUP, Macros)

Stakeholder Communication & Collaboration: Requirement elicitation, Stakeholder workshops, Figma, Rational Rose, Lucidchart

Analysis Techniques: GAP Analysis, Cost-Benefit Analysis, Risk Analysis, SWOT Analysis, Impact Analysis

Cloud Technologies & Platforms: AWS, Microsoft Azure, GCP, Databricks

Version Control & Documentation: Git, GitHub, GitLab

Soft Skills: Critical Thinking, Problem-Solving, Communication, Cross-Functional Collaboration, Time Management

EXPERIENCE

Cigna Healthcare Group

January 2024 - Present

Business Analyst

USA

- Led the analysis and documentation of business requirements, developing BRDs, FRDs, and SRS to ensure alignment between business objectives and technical specifications.
- Developed KPI dashboards using Tableau and Power BI, enabling data-driven decision-making and optimizing business operations.
- Collaborated with Sales, Marketing, Finance, and IT teams to implement business process automation, leveraging Power BI and MS Project, leading to improved efficiency.
- Conducted User Acceptance Testing (UAT) to validate system functionality and ensure business alignment.
- Facilitated requirement elicitation sessions with stakeholders across departments, employing GAP, Cost-Benefit, and Risk Analyses to identify inefficiencies and recommend improvements.
- Managed Agile and Waterfall projects using Jira and Confluence to track progress, manage sprints, and ensure timely project completion.
- Integrated AWS and Azure for scalable business solutions, ensuring secure data management and improved system performance.
- Developed a Requirements Traceability Matrix (RTM) to ensure project deliverables aligned with business needs and were tracked throughout the lifecycle.

Value Momentum

July 2019 - June 2022

Business Analyst

Hyderabad, India

- Participated in Agile ceremonies, including sprint planning and retrospectives, to enhance collaboration and optimize project timelines.
- Designed KPI dashboards for ERP systems using SQL, Tableau, and Power BI, providing actionable insights to enhance decision-making.
- Conducted data analysis on a workforce of 3,500 employees, utilizing GAP and Root Cause Analysis to refine skill pool tracking, resulting in a 40% increase in bench workforce utilization.
- Led a cross-functional team of five in collaboration with Sales, Marketing, and Finance on a Power BI automation project, using MS Project for planning, significantly improving process efficiency.
- Implemented AWS S3 storage solutions to streamline employee data management, contributing to better skill pool tracking and enhanced workforce utilization.

- Assisted in gathering and documenting business requirements through stakeholder workshops and interviews, creating detailed BRDs and FRDs to support system development.
- Developed Process Flows and Use Case Diagrams to visualize business processes and system interactions.
- Conducted GAP and SWOT Analyses to assess current business processes and recommend enhancements.
- Created data reports and visualizations using Tableau and Power BI, supporting performance tracking and strategic planning.
- Utilized SQL and Excel (Pivot Tables, VLOOKUP, Macros) for data analysis, reporting, and business performance evaluation.
- Collaborated in project management activities using MS Project and SharePoint, ensuring project milestones and deliverables were met.
- Assisted in User Acceptance Testing (UAT), including test case creation, execution, and documentation of results.
- Worked on cloud technologies (AWS, GCP) for data management and cloud-based initiatives.
- Maintained version control using Git and GitHub, ensuring structured documentation and tracking of project changes.

EDUCATION

CERTIFICATES

- AWS Cloud Practitioner
- Six Sigma Green Belt
- Scrum Master
- SAFe® Agilist.
