Full-Stack Developer - PHP • Python • MySQL • JavaScript

Actively seeking Returnships & Full-Time Roles • Work Authorization: H4-EAD

Professional Summary:

Full-Stack Developer with 5.10 years of experience in Python, PHP, JavaScript and MySQL across telecom and educational software domains. After a professional break, I'm now authorized to work in the U.S. and actively seeking returnship or full-time software engineering opportunities to rejoin the tech industry.

Technical Skills:

- **Languages:** PHP, Python
- **Databases:** MySQL
- **Web Technologies:** HTML, CSS, JavaScript, jQuery, Ajax
- **Tools:** Burp Suite, JIRA, Wireshark, SVN, Git, HeidiSQL
- **Web Server:** Apache Tomcat
- **OS:** Linux (Ubuntu, Debian, Centos & RHEL) and Windows
- **Protocols:** TR-069, SYSLOG
- **Web services:** REST API, SOAP
- **Other:** Agile, Eclipse, Visual Studio Code, Security Testing (XSS, CSRF, SQL-Injection)

Professional Experience:

Ekinops Networks India Pvt Ltd

Research & Development Engineer

Apr 2015 – Feb 2019 | Bengaluru, India

OneManage - Auto Configuration Server (ACS)

- Worked on TR-069, Syslog protocols, SOAP and REST APIs.
- Developed and maintained ACS platform that provisions up to 50k CPEs (Customer Premises Equipment) using Python, PHP, MySQL and REST APIs.
- Built diagnostics and alerting modules to monitor CPE health status.
- Wrote log collectors in Python to parse and store CPE logs.
- Built data visualization dashboards and generated PDF reports.
- Improved performance by identifying and resolving bottlenecks.
- Secured the server against common web vulnerabilities using Burp Suite, Kali Linux and manual testing.
- Reviewed code for optimization and best practices.
- Debugged and rectified issues faced in client environment.

Web Configuration File (WCF)

- Followed Agile methodology throughout development.
- Managed custom feature development and deployments for multiple clients.
- Analyzing and designing new requirements for the projects.
- Designed and developed web UI for router configuration using HTML, CSS, JavaScript and jQuery.
- Managed release cycles and documentation.
- Wrote and executed unit tests to validate core functionality.
- Performed security testing of the application using Burp Suite.

Full-Stack Developer - PHP • Python • MySQL • JavaScript

Actively seeking Returnships & Full-Time Roles • Work Authorization: H4-EAD

Thoughtnet Technologies India Pvt Ltd

Associate Software Engineer

Jun 2013 – Apr 2015 | Bengaluru, India

Pupilpod

- Developed Cloud-based ERP Software for leading schools in Malaysia and India using PHP, MySQL, HTML, CSS and JavaScript.
- Implemented user role-based access control.
- Collaborated directly with clients to gather requirements and shape solutions.
- Involved in database design and optimization of queries to improve the performance.
- Created client-specific reports and handled releases.

Professional Development and Industry Engagement (2021–2025)

- **CS50's Introduction to Programming with Python – HarvardX (Ongoing)**
Solving weekly problem sets and hands-on assignments to sharpen Python fundamentals. Code: github.com/code50/55541850
- **Complete Python Bootcamp – Udemy (Completed: Dec 2019)**
Covered scripting, OOP, data handling, and building Python applications from scratch.
- **MySQL, SQL & Stored Procedures – Udemy (In Progress)**
Working through performance optimization, stored procedures, and real-world data queries.
- **Guest Workshop Speaker – Web Application Security**
Delivered a session at Vidyavardhaka College of Engineering, Mysuru (Nov 2021).
- **LeetCode – DSA Practice (Ongoing)**
Regularly solved algorithmic challenges to stay sharp with problem-solving and code efficiency.

Education:

- **Bachelor of Engineering (Information Science)**
Visvesvaraya Technological University, India – 2013.

Work Authorization:

- Valid U.S. work permit – **H4 EAD**, no sponsorship required.
