

SHREYA SUDHIR KADAV

+1-419-486-9269 | shreyakadav4422@gmail.com | LinkedIn | GitHub

Summary

Aspiring Data Analyst with a background in data science and hands-on experience in data management and statistical analysis. Skilled in Python, R, and SQL, and proficient with analytical tools like Tableau and PowerBI, supporting robust data analysis and insight generation. Successfully conducted data cleaning and statistical analysis for research projects, demonstrating strong problem-solving skills. Eager to leverage analytical expertise to drive data-driven business solutions.

EDUCATION

The University of Toledo, Ohio

May 2025

Bachelor of Science, Data Science (Public Health Concentration)

- **GPA:** 4.0
- **Achievements:** Outstanding Undergraduate Student Award in Data Science Department - Spring 2025, President's List - Fall 2023, Spring 2024, Fall 2024, Spring 2025, Certificate of Achievement (Semesters I, II, III, IV), Vidyalankar School of Information Technology, India. (Equivalent to President's List)
- **Coursework:** Machine Learning, Data Science I & II, Data Visualization, Geographic Information Technology, Applied Econometrics, Database-Driven Web Sites, Artificial Intelligence, Object-Oriented Programming, Probability, Mathematical Statistics, Hypothesis Testing, Data Science Ethics, Public Health Research and Statistics, Epidemiology, Global Health, Web Technology, Database Management, Calculus I & II, Data Structures and Algorithms, Data Warehousing, Data Mining, Linear Algebra and Discrete Mathematics, Big Data, Numerical Methods

SPECIAL SKILLS

- **Programming Languages:** SAS, R, R Shiny, Python (NumPy, Pandas, Matplotlib, Scikit-learn), SQL, PHP, HTML, CSS, JavaScript, JSON, Java
- **Software:** Tableau, PowerBI, ArcMap, Arc GIS Pro, Slate, SAS, SPSS, STATA, WEKA, SciLab, Canva, TinkerCAD, Microsoft Office, Google Office

PROJECTS (RELEVANT COURSEWORK)

Predicting School Enrollment using R and SAS | https://github.com/shreyakadav/Predicting_School_Enrollment_Using_SAS

- Led a statistical modeling project using R to analyze how demographic, economic, and crime indicators influenced public school enrollment across U.S. counties from 1990-2001.
- Cleaned and merged multi-source datasets using FIPS codes, built linear regression models, and identified key predictors such as population, racial composition, and crime rates, achieving an R2 of 0.57.

Predicting School Enrollment using R and SAS | https://github.com/shreyakadav/Predicting_School_Enrollment_Using_R

- Conducted a multivariate regression analysis in SAS to examine how economic conditions, crime rates, and law enforcement presence impact U.S. public school enrollment at the county level.
- Built and compared multiple models using over 32,000 observations, revealing employment as a positive predictor and highlighting unexpected associations such as the inverse relationship between income and enrollment (R2 up to 0.11).

Predicting Bitcoin Price using SAS | https://github.com/shreyakadav/Predicting_Bitcoin_Price_Using_SAS

- Built regression models in SAS to predict weekly Bitcoin prices using behavioral and financial indicators like Google search interest, wallet activity, and S&P 500 performance.
- Identified four significant predictors in the final model (R2 = 27.68%) and improved interpretability by applying data transformations to reduce autocorrelation in time series data.

Finding Best Machine Learning Classifier using Python | https://github.com/shreyakadav/Finding_Best_Classifier_Python

- Developed a spam detection pipeline in Python using Scikit-learn, evaluating seven machine learning models including Random Forest, SVM, and AdaBoost.
- Assessed models using AUC and TPR at 1% FPR to simulate real-world conditions, identifying top performers for precision-sensitive tasks such as fraud detection.

Data Visualization Projects using R Shiny | <https://github.com/shreyakadav/aid-dashboard>

- Collaborated on an interactive R Shiny dashboard to analyze global aid trends using AidData.
- Designed visualizations including animated time series, treemaps, heatmaps, and bubble plots to explore donor activity over time, enhancing skills in reactive programming and public policy data storytelling.

Data Visualization Projects using R Shiny | <https://github.com/shreyakadav/Data-Visualization/blob/main/RShinySpotifyAssignment.R>

- Built an interactive Shiny app to visualize Spotify streaming trends through bar charts, bump plots, word clouds, and Sankey diagrams.
- Enabled user-uploaded CSV inputs and created decade-wise and artist-wise views using R packages like ggplot2, dplyr, and networkD3, demonstrating proficiency in dynamic dashboard development.

WORK EXPERIENCE

College of Graduate Studies, The University of Toledo, USA**Sep 2023 - May 2025***Student Office Worker*

- Performed data entry tasks, enhanced office efficiency, and ensured that all student information was accurately recorded and easily accessible.
- Provided assistance to students and faculty, ensured effective communication, and responded to phone calls in a timely manner.
- Scanned and maintained transcripts and other important documents, ensured accurate record-keeping and easy access to vital information.
- Addressed inquiry emails and handled walk-ins, provided in-person assistance, and responded to student inquiries and concerns, contributing to a positive and supportive environment for graduate students and ensuring their needs were met promptly.

The University of Toledo, USA**Jan 2024 - Dec 2024***Student Researcher - NSCH Study*

- Conducted data cleaning, variable recoding, and statistical analysis to ensure data accuracy, interpret results, and generate insights.
- Performed comprehensive literature reviews to support research objectives, contributing to publications and presentations in collaboration with faculty and research team members.

Vidyalankar School of Information Technology, India**Jun 2022 - May 2023***Student Placement Coordinator*

- Conducted outreach to students via phone calls and emails, providing them with updates on internship and job openings, leading to increased awareness of available opportunities.
- Assisted in conducting workshops and information sessions on resume writing and interview preparation, empowering students with the skills needed to succeed in the job market.
- Gathered feedback from participants and employers' post-events to assess effectiveness and make improvements for future recruitment drives, contributing to continuous enhancement of the placement process.

LEADERSHIP EXPERIENCE

Computer Society of India, Bombay Chapter, VSIT, India**Apr 2023 - May 2023***Documentation Head*

- Led report writing and oversaw event documentation to ensure accurate and timely records.

The University of Toledo, USA**2025***Midwest Graduate Research Symposium Volunteer*

- Gained experience in event coordination, time management, and academic networking in a fast-paced environment.
- Assisted with registration, session coordination, and guest support to ensure smooth operation of the event.

Kanuni Charcha, Vidyalankar School of Information Technology, India**Jun 2022 - May 2023***Public Relations Worker*

- Led Campus-to-Corporate (C2C) marketing initiatives and organized high-profile events like Model Lok Sabha, effectively promoting the organization's activities and enhancing brand visibility while coordinating logistics, speakers, and promotional efforts to increase student engagement and public awareness.

Kanuni Charcha, Vidyalankar School of Information Technology, India**Aug 2021 - May 2023***Human Resource Worker*

- Drafted Minutes of Meetings (MoMs) and prepared detailed reports on project progress, volunteer activities, and HR-related data, ensuring clarity, effective follow-up, and informed decision-making.
- Maintained and updated Excel sheets with members' details, supported the HR team with document organization, and ensured accurate record-keeping, enhancing transparency and ease of access to critical information.

Computer Society of India, Bombay Chapter, India**Aug 2021 - May 2023***Core Team Member*

- Actively participated in event organization, volunteer coordination, and C2C marketing efforts.

Vidyalankar School of Information Technology, India**Aug 2021 - May 2023***R & D Committee Member*

- Contributed to report writing, volunteering, and C2C marketing efforts, leading to improved outreach and effective communication of research initiatives, while playing a key role in organizing events like V-Search - Research Paper Conference, which provided a platform for student research and significantly enhanced academic engagement.

CERTIFICATIONS

- **Social, Behavioral, and Education (SBE) & Humanities RCR [Credential ID: 59192969]**
- **Biomedical Sciences RCR [Credential ID: 69031041]**
- **Social-Behavioral-Educational Researchers and Students [Credential ID: 69031150]**
- **Spoken Tutorial: Introduction to Computers**
- **Spoken Tutorial: R**
- **Spoken Tutorial: RDBMS PostgreSQL**
- **Spoken Tutorial: Python**

• **Other Certificates: Other Certificates: Sololearn SQL, V-Search, IEEE, WIE-IEEE, TinkerCAD, CSI, VYAPAAR, VSTARTUP**
