

Shreya Nandhivargam | Full stack developer

Saint Louis, MO, USA | +1 (314) 934-8561 | nandhivargamshreya@gmail.com | LinkedIn

SUMMARY

Full Stack Developer with nearly **4 years of experience** building web applications using React.js, Spring Boot, and SQL. Skilled in developing secure RESTful APIs, implementing JWT-based authentication, and deploying services on AWS using Docker and GitHub Actions. Proficient in writing unit and integration tests with JUnit and Postman. Presented accessible, responsive interfaces and backend systems in Agile environments. Strong understanding of CI/CD, API integration, database optimization, and version control using Git and Maven across cross-functional teams.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), HTML5, CSS3, SQL

Frontend: React.js, Redux (basics), Bootstrap, Tailwind CSS, REST API integration, Responsive Design

Backend: Spring Boot, RESTful APIs, MVC, JWT Authentication, CRUD Operations

Databases: MySQL, PostgreSQL, MongoDB (basic), JDBC, Hibernate (JPA)

Tools & DevOps: Git, GitHub, Postman, Maven, Docker (basics), CI/CD (GitHub Actions), Apache Tomcat

Cloud & Deployment: Heroku, Netlify, Vercel, AWS EC2/S3

Testing: JUnit, Postman, Chrome DevTools

Concepts: REST Architecture, MVC, SDLC, Agile, OWASP Top 10

PROFESSIONAL EXPERIENCE

Paytient, MO, USA

Jan 2025 - May 2025

Full Stack Developer Intern

- Created **JWT-secured** Spring Boot **APIs**, reducing login-related failures by **35%** and securing access to internal patient-facing application modules.
- Analyzed responsive **React.js** interfaces with **REST API** integration, improving user accessibility and achieving a Lighthouse score of **95** across target devices.
- Used **Docker** containers and **GitHub** Actions for deployments to **AWS EC2**, cutting manual deployment time by **60%** and streamlining delivery pipelines.
- Increased automated test coverage from **52%** to **91%** using **JUnit** for unit tests and **Postman** for integration checks on core services.
- Provided complete **MVP** in **10** weeks by coordinating tasks with **backend**, **QA**, and design teams while staying within project delivery timelines.

Zensar Technologies, India

Aug 2021 - Jul 2023

Full Stack Developer

- Built scalable **REST APIs** using **Spring Boot**, **Hibernate**, and **MySQL**, reducing average query time by **37%** through better indexing and optimized database structure.
- Created modular **React.js** components with **Tailwind CSS**, cutting front-end development time by **28%** across reusable **UI** libraries.
- Linked **frontend** and **backend** using **REST APIs** and **Axios**, reducing data request failures by **42%** in multiple enterprise applications.
- Automated **CI/CD** workflows with **GitHub** Actions and **Maven**, improving deployment speed and reducing production rollout delays by **50%**.
- Boosted test coverage from **56%** to **87%** by writing **JUnit** unit tests and **API** tests in **Postman** across all major services.
- Mentored junior developers during code reviews and daily stand-ups, reducing production issues and ensuring consistent code quality across releases.
- Completed over **150 Jira tickets** and distributed features on time across **six Agile** sprints with cross-functional team coordination.

Razorpay, India

Mar 2020 - Jul 2021

Front-End Developer

- Rewrote key **UI** modules in **React.js** with **ES6+**, reducing maintenance issues and cutting future development time by **40%** on **Razorpay's** customer-facing payment dashboard.
- Directed real-time analytics dashboard using **REST APIs** and **React hooks**, reducing load time by **55%** and increasing visibility into live transaction data.
- Implemented mobile-first designs using **Tailwind CSS** and **Bootstrap**, improving Lighthouse mobile scores from **68** to **93** and ensuring consistency across devices.
- Improved **API** error resilience using **Axios** interceptors and retry logic, reducing frontend **API** call failures by **30%** during high transaction loads.
- Resolved browser rendering issues using Chrome **DevTools** and tested layouts across **Chrome**, **Firefox**, **Safari**, and **Edge** for full cross-browser consistency.
- Participated in sprint planning and delivery cycles, completing assigned **UI** tickets within weekly deadlines and delivering releases with zero front-end regressions.

EDUCATION

Master of Science, Information Systems

May 2025

Saint Louis University, Missouri, USA

Bachelor of Technology, Digital Techniques for Design and Planning

Aug 2021

Jawaharlal Nehru Architecture and Fine Arts University, Telangana, India

PROJECTS

Operations & Workflow Lead – Women in Cybersecurity (WiCyS)

- Authored and optimized admin dashboards and backend workflows using Agile methodology, improving system performance and operational efficiency by 30%.
- Led cross-functional teams through sprint planning, task prioritization, and Trello-based progress tracking to ensure timely delivery of web development projects.
