

Shreyas Sandip Sawant

Business Analyst

Location: California, USA | Ph: +1(747) 224 7968 | Mail: Shreyassawant171221@gmail.com

PROFESSIONAL SUMMARY:

3+ years of experience as a Business Analyst with a proven track record of success in gathering, analyzing, and documenting complex business requirements. Expertise in eliciting and documenting functional and non-functional requirements, performing gap analysis, and ensuring alignment between business needs and technical solutions. Proven experience in Agile and Waterfall methodologies, with strong analytical and problem-solving skills. Proficient in utilizing various tools and technologies such as Jira, Confluence, Tableau, Power BI, SQL, PL/SQL, SSIS, SOAP UI, Postman, Microsoft Project, Visio, UML and MS Office Suite. Adept at collaborating with cross-functional teams, stakeholders and end-users to deliver successful projects that meet business objectives and exceed expectations.

TECHNICAL SKILLS:

Business Analysis:	Functional Requirement Documents (FRD), Business Requirement Documents (BRD), System Requirement Specifications (SRS), Requirements Traceability Matrix (RTM), Gap Analysis, Impact Analysis, SWOT Analysis, Use Cases, JAD Sessions, Workflow Models, Business Process Models
Compliance & Standards:	ICD, HL7, HIPAA, Reserve Bank of India (RBI) Guidelines, Anti-Money Laundering (AML), Know Your Customer (KYC) Compliance
Data Analysis:	SQL, PL/SQL, Oracle, Microsoft Access, Data Validation, Data Integrity, ETL, Data Transformation, Data Mining, Exploratory Data Analysis (EDA)
Visualization & Reporting:	Tableau, Power BI, Microsoft Project, Use Case Diagrams, UML Diagrams, Workflow Diagrams
Project Management:	Jira, Confluence, Agile, Scrum, Waterfall, Microsoft Project, Test Management, UAT Plans, Risk Management
Integration & Middleware:	SOAP UI, Postman, SQL Server Integration Services (SSIS)
Database Management:	SQL, PL/SQL, Oracle, Microsoft Access Healthcare Transactions: EDI Transactions (837, 835, 270/271)
Development Tools:	HP ALM, Microsoft Visio, Eclipse
Testing & Quality:	User Acceptance Testing (UAT), Regression Testing, Functional Testing

PROFESSIONAL EXPERIENCE:

BUSINESS ANALYST | Kaiser Permanente – CA | Aug 2023 - Present

- Increased documentation accuracy by 25% by leveraging Jira and HP ALM for advanced tracking and ensuring comprehensive FRD, BRD, and SRS documentation for EHR and Medicare systems.
- Performed detailed gap analysis and impact assessments to identify discrepancies between current systems and compliance requirements, mitigating risks in project delivery.
- Designed and optimized business process models using MS Visio, visualizing current and future workflows to identify bottlenecks and improve operational efficiency.
- Analyzed EDI transactions (837, 835, 270/271) to validate data integrity, enforce HIPAA compliance and resolve discrepancies in transaction processing. Streamlined reporting processes by 40% by developing user-friendly Tableau dashboards, enhancing decision-making capabilities.
- Implemented robust documentation processes using Jira for issue management and Confluence for centralized collaborative documentation.
- Ensured ICD & HL7 compliance by collaborating with cross-functional teams, leading to seamless integration of healthcare standards.
- Maintained end-to-end traceability by updating & managing the RTM, ensuring alignment between business requirements & delivered functionalities.
- Developed complex SQL queries to extract, analyze and validate healthcare data from Oracle and Microsoft Access databases, supporting data-driven decisions. Conducted SWOT & GAP analyses to assess project feasibility, identify risks & recommend actionable strategies for system implementation.

BUSINESS ANALYST | Wipro – India | Jun 2020 – Jul 2022

- Successfully gathered and documented requirements for a financial risk management system, leading to a 30% reduction in compliance-related issues. Coordinated with IT teams for middleware integration using SOAP UI and Postman.
- Implemented a new reporting framework using Power BI, resulting in a 25% improvement in report generation time.
- Conducted GAP analysis that identified key areas for process improvement, contributing to a 15% increase in operational efficiency. Developed and executed UAT plans that achieved a 98% success rate, ensuring system readiness for deployment.
- Authored and maintained detailed FRDs and BRDs, a foundational communication tool between cross-functional technical teams and business stakeholders, ensuring alignment on project objectives and deliverables.
- Worked on JAD sessions to effectively gather and validate requirements from stakeholders, ensuring that project scope and objectives were clearly defined and agreed upon, thereby minimizing scope creep.
- Performed thorough impact analysis to evaluate the implications of proposed changes on existing banking systems and operational processes, providing actionable insights to mitigate risks and enhance system performance.
- Developed and presented UML diagrams and detailed workflow models to visualize complex business processes and system interactions, aiding stakeholders in understanding system functionalities and user journeys.
- Leveraged SQL and PL/SQL to perform data extraction, transformation, and loading (ETL), ensuring high levels of data integrity and accuracy for analytical reporting and decision-making.
- Engineered and implemented robust ETL processes using SQL Server Integration Services (SSIS) to enhance data flow efficiency between disparate banking systems, improving data accessibility for business intelligence.
- Utilized Microsoft Project to meticulously manage project timelines, track deliverables, and ensure adherence to deadlines, facilitating effective project execution and stakeholder communication.
- Developed and maintained comprehensive documentation for compliance purposes, including Requirements Traceability Matrix (RTM) and detailed use cases, ensuring alignment with regulatory standards and audit readiness.
- Monitored and enforced adherence to critical regulatory standards, including Reserve Bank of India (RBI) guidelines and Anti-Money Laundering (AML) and Know Your Customer (KYC) compliance, safeguarding the organization against legal and financial risks.

EDUCATION:

Master of Science in Engineering Management - California State University, Northridge, CA, USA.

Bachelor of Engineering in Information Technology - Mumbai University, Thane, Maharashtra, India.
