PROFESSIONAL EXPERIENCE

Data Scientist Arizona State University	February 2025 - Present Tempe, Arizona
- Analyze data from 50+ U.S. hospitals using SQL and Excel to identify KPIs tied to AI and IT service usage in the healthcare domain - Review 30+ surveys, articles, and healthcare studies to validate segmentation insights and recommend targeted AI/IT support strategies - Design and evaluate A/B tests across 8+ departments to compare behaviors and workflow effectiveness across segments, identifying factors that influence technology adoption - Develop Tableau dashboards with 5,000+ records to track operational trends, saving 6 hours/ month of manual analysis	
Data Science Analyst FlexiVan	August 2024 - December 2024 Scottsdale, Arizona
- Developed ETL workflows in SQL and built demand-forecasting models in Python using Random Forest, SARIMA, and Prophet to predict weekly demand for 10K+ leased assets at 90% accuracy - Identified usage patterns, seasonal trends, and customer behavior drivers through EDA, contributing to a 12% reduction in idle asset inventory and \$1.8M in annual savings - Built Power BI dashboards for demand trends, improving decision-making speed by 30% and reducing manual work by 10 hrs/week - Presented forecasting insights to senior executives, influencing strategic decisions on fleet optimization and leasing strategy	
Data Analyst Tata Consultancy Services	November 2020 - July 2023 Bangalore, India
- Utilized SQL to extract and analyze policy and customer datasets to identify behavioral and policy factors influencing churn risk and premium accuracy, streamlining calculation workflows and reducing query runtime by 25% across agency portals - Automated data cleaning and preparation processes in Python to generate high-quality inputs for churn prediction and behavior analysis, reducing reporting time by 15 hours per month and improving operational efficiency by 30% - Developed Power BI dashboards with DAX-driven KPIs to track customer engagement, renewal likelihood, and churn indicators, enabling targeted retention strategies that contributed to \$120,000 in additional annual revenue - Managed CI/CD pipelines using Jenkins and Git to ensure consistent deployment of analytics workflows, integrating end-to-end validation checks, and reducing manual effort by 4 hours weekly while improving release reliability across environments	

PROJECT EXPERIENCE

ChatGPT Growth and User Engagement Analysis, Arizona State University	October 2024 - December 2024
- Analyzed ChatGPT user data in Excel and Tableau dashboards to present 100K user growth in 5 days, and key demographic trends - Designed discipline-level usage visuals that uncovered insights informing strategy and boosting engagement by 3M+ users	
Yelp Dataset Analysis & Customer Segmentation, Arizona State University	January 2024 - February 2024
- Conducted Sentiment Analysis on 14.5K Yelp reviews across 5 cuisines using BERT Topic Modeling to identify key satisfaction drivers, boosting customer loyalty by 20%, and reducing service costs by \$100,000 annually - Visualized feedback themes with Python libraries like Matplotlib and WordCloud, identifying issues with service quality and wait time, reducing customer complaints by 15%, and cutting operational costs by \$30,000 annually	

SKILLS

Programming Languages: Python, SQL
Statistical Analysis & Machine Learning: Regression testing, Hypothesis Testing, A/B testing, Statistics, Time Series Analysis and Forecasting, Quantitative Analysis, Relational Database Design, Lean Six Sigma, Scikit-learn, Natural Language Processing
Tools: Tableau, Power BI, Excel, MySQL Workbench, StatTools, Minitab, Jenkins, Git, Jupyter Notebook, JSON
AWS: EC2, Redshift, DynamoDB, RDS, S3, AWS Lambda, AWS CloudFormation

EDUCATION

W. P. Carey School of Business, Arizona State University	August 2023 - December 2024
Master of Science in Business Analytics, Specialized in Cloud Computing GPA: 3.96/ 4.00	Tempe, Arizona
Relevant Courses: Descriptive and Predictive Analysis, Analytical Decision Modeling, Business Data Visualization	
Dr Ambedkar Institute of Technology	August 2016 - July 2020
Bachelor of Engineering, Information Science & Engineering GPA: 3.65/ 4.00	Bangalore, India
Relevant Courses: Data & Analytics, Machine Learning & Applications, Probability, Queuing & Reliability Theory	

CERTIFICATIONS

- AWS:** AWS Academy Cloud Foundations, AWS Academy Cloud Architecting
- Coursera:** Supervised Machine Learning (Regression and Classification), Advanced Learning Algorithms
