Education

University of Texas at Arlington
Master's in Computer Science (CGPA: 3.5/4.0)
Jawaharlal Nehru Technological University
Bachelor of Technology in Electrical & Electronics Engineering

Arlington, TX
Aug 2023 - May 2025
Hyderabad, India
Aug 2019 - May 2023

Technical Skills

Programming Languages : Java, Python, JavaScript, TypeScript, C++, Go, C#
Frontend Technologies : HTML, CSS, Bootstrap, React.js, Angular.js, Next.js, Three.js, Tailwind CSS, Semantic UI, Redux, JSX, Webpack
Backend Technologies : Node.js, Express.js, .NET, GraphQL, REST
Machine Learning : TensorFlow, PyTorch, Scikit-Learn, PySpark, OpenCV
Databases : PostgreSQL, MongoDB, SQL Server, Firebase Realtime Database
DevOps & Cloud Services : Docker, Kubernetes, AWS, Terraform
Version Control : Git/GitHub, JIRA
Software Tools : VS Code, Eclipse, Jupyter, CAD, Figma, Vercel, AJAX, JUnit, Cypress
Office Tools : Word, Excel, PowerPoint

Professional Experience

Software Developer Inter **Columbus, Ohio**
Pigybak **Aug 2025 - Present**

- Led backend/API development for AI-featured, modularized services and added load testing, improving P95 latency by 30% and service reliability during traffic spikes
- Mentored junior devs on cloud CI/CD and data workflows, accelerating onboarding and reducing review rework by 25%
- Introduced query optimizations and caching, cut read I/O, and reduced DB timeouts to near-zero in peak hours

Software Developer Intern **Dallas, Texas**
Dynamic Soft Solutions LLC **Aug 2024 - May 2025**

- Built presentation layer with HTML/JSTL/jQuery, speeding client-side validations by about 30% and improving UX responsiveness
- Refactored custom tag libraries; adopted JSON data loading to reduce payload size and network trips
- Tuned SQL queries and indexed, shrinking endpoint response times on data-heavy views, and collaborated on relational schemas, improved reporting performance by about 15%
- Implemented unit tests and REST integrations in Angular + JavaScript, raising code coverage and front-end stability

Software Developer Intern **Hyderabad, India**
Soulpage IT Solutions **Aug 2022 - May 2023**

- Increased manager tracking efficiency by 54% through development of the **Hugo Attendance Tracker**, featuring a responsive and intuitive UI built with **HTML** and **Bootstrap**, ensuring seamless cross-device usage
- Developed scalable back-end REST APIs using **Python** and **Django REST Framework**, implementing **POST**, **PUT**, **GET**, and **DELETE** operations, seamlessly integrated with **PostgreSQL** for efficient data management and reliable performance
- Systematized attendance management by integrating leave balances and project tracking, improving team oversight by 63% and reducing manual intervention
- Led system testing and debugging efforts as part of a co-op program, identifying and resolving critical performance bottlenecks, enhancing application reliability by 35% and minimized downtime

Projects

AI-Powered DevOps **Dec 2024**

- Built an AI-driven DevOps framework using GPT-3.5 turbo, SonaQube, AWS GuardDuty, Docker, and Terraform to automate secure, scalable CI/CD pipelines
- Automated code reviews and deployment validation with Python and LLMs, improving efficiency and compliance
- Integrated GuardDuty and SonarQube for real-time security analysis and code quality monitoring

Online Car Bidding System **Sep 2023**

- Implemented real-time bidding with concurrency-safe database writes, optimized queries and indexes, and performed load testing to reduce database latency by 40% and server response time by 35%
- Deployed on AWS with rollout scripts and health checks, raising availability by 40% and enabling blue/green upgrades

Certifications

- AWS Cloud Practitioner
- Microsoft Certified: Azure AI Fundamentals (AI-900)
