EDUCATION

Pace University

Master of Science in Computer Science | Courses: **Information Security Management**, Network Security | GPA: **3.8**

New York, NY

May 2025

Visveswaraya Technological University

Bachelor of Engineering (B.E.)

Bengaluru, India

July 2022

SKILLS

Technical: Incident Management, **ISO 27001**, **TCP/IP**, Linux, **IT General Controls**, Application Security, **Cloud Security**, Manual Code Review, Kubernetes, IT Governance, Generative AI, OSINT, PCI DSS, HIPAA, GDPR, Identity & Access Management, **OWASP TOP 10**, SaaS, RESTful APIs, Web Application Penetration Testing, **IaaS**, GCP, Project Management, Customer Service, Business Continuity, Secure SDLC Practices, Burp Suite, **Wireshark**, Nmap, SOAR, Jira, Scrum, **Agile**, MITRE Attack, Qualys, MS Office Suite, **NIST RMF**, **CSF**, SOX, COBIT, AI Ethics, **Splunk**, Pandas, NumPy, **Power Shell**, Bash, Tenable, Encase, Q radar, Active Directory.

Certifications: CCNA, **CompTIA Security+**, AWS Solutions Architect **SAA-C03**, CC - **ISC2**, Network Security Level 3 – **NSE 3 (Fortinet)**, Cyber Law, Datacom Cybersecurity Job Simulation, Mastercard Cybersecurity Job Simulation, Digital Forensics Essentials (EC-Council), Azure **AZ-900**, Lean Six Sigma White Belt, Data Science - NIIT, **CISA - ISACA** (In Progress).

Programming Languages: Python, Java, JavaScript, GO, C, C++, Linux (Kali, Ubuntu), SQL, HTML, CSS, Windows CLI.

WORK EXPERIENCE

Mars Technologies, Inc.

Cyber Security Analyst (SOC)

Bengaluru, India

July 2022 – August 2023

- Spearheaded security audits to identify potential **vulnerabilities**, accomplishing 87% risk mitigation.
- Enforced Information Security compliance audits and **MFA**, strengthening Data privacy. Provided **IT Technical Support**.
- Monitored security events and breaches using SIEM tools (**Sentinel and LogRhythm**). Have resolved 100+ incidents.
- Optimized threat detection by 60% with IT security controls and technologies, such as **Firewall ACL** and **IDS/IPS**.

PROJECTS

Design and Implementation of a Honeypot for Enhanced Network Security.

New York, NY

- Deployed Cowrie and Dionaea honeypots to capture **SSH/Telnet** attacks and malware samples.
- Configured Suricata IDS with custom rules and detected 100+ **malicious network traffic** logs and **packet captures**.
- Automated attack analysis using Python scripts, ELK Stack, and **sandboxing** techniques.

InvestIQ – Fintech Application for Investment Predictions and Portfolio Management.

New York, NY

- Developed and deployed an investment and portfolio management web app using **Next.js**, Flask, and **PostgreSQL**, handling real-time financial data from Financial News & **Polygon API** to provide personalized investment insights.
- Built and tested a deliberately vulnerable Flask application using DVWA and OWASP Juice Shop. Identified vulnerabilities using **Burp Suite**, analyzed logs using **ELK**, and documented findings and remediation steps.
- Implemented deep learning-based Time Series Analysis, enhancing investment forecasting accuracy by 30% and optimizing portfolio performance.

Triple DES (3DES) implementation for Image Encryption

Bengaluru, India

- Engineered an image cryptography system using the Triple DES (3DES) algorithm, securing data with a 168-bit key length and providing 65% higher security strength compared to standard DES.
- Successfully implemented the encryption pipeline in Python, achieving 100% decryption accuracy with **zero data loss** on image files using **PyCryptodome** and secure cipher block chaining modes, enabling safe image transmission.

LEADERSHIP EXPERIENCE AND COMMUNITY SERVICE

Visveswaraya Technological University

Bengaluru, India

- Directed and led the Covid vaccination campaign at KSIT, Bengaluru (Ensured **3,500 Vaccinations**).
- As a Team leader and a Cultural Coordinator, hosted the College's Annual Cultural Fest and a Technical Summit.
