PROFESSIONAL SUMMARY

Versatile **Backend Developer** with 4+ years of experience in designing, building, and maintaining enterprise-grade applications. Proficient in **Java, Spring Boot, Node.js, REST APIs, Microservices**, and cloud technologies such as **AWS, Azure**, and container orchestration with **Kubernetes**. Skilled in **Docker, CI/CD pipelines, database management**, and Agile delivery. Adept at collaborating across teams to deliver scalable, secure, and high-performance software solutions.

CORE COMPETENCIES

Programming Languages: Java, Node.js, Python, Go, C++

Frameworks: Spring Boot, Spring MVC, Hibernate, Express.js

Databases: MySQL, PostgreSQL, MongoDB, Oracle, Redis

Cloud Platforms: AWS (ECS, Lambda, S3), Azure, Google Cloud Platform

DevOps & Tools: Docker, Kubernetes, Jenkins, Git, Maven, GitHub Actions, JIRA

Methodologies: Agile/Scrum, CI/CD, RESTful API Design, Microservices Architecture, DevSecOps

PROFESSIONAL EXPERIENCE

Deloitte | Backend Developer | Missouri, USA | Sep 2024 – Present

- Designed and implemented scalable backend services using Java and Spring Boot.
- Built RESTful APIs and Microservices integrated with AWS ECS and Kubernetes.
- Enhanced performance through Redis caching and SQL query optimization.
- Developed CI/CD pipelines with Jenkins and GitHub Actions for automated deployments.
- Collaborated with front-end and DevOps teams to streamline delivery across environments.
- Monitored and improved system performance using Elasticsearch and Prometheus.
- Mentored junior engineers and ensured adherence to coding best practices.

KeyBank | Spring Batch Developer | Chicago, USA | Jan 2024 – Aug 2024

- Developed batch jobs for data ingestion and transformation using Spring Batch and Java.
- Integrated APIs with Node.js Microservices and optimized database interactions.
- Deployed applications using Docker and Jenkins pipelines ensuring consistent builds.
- Implemented message queues with Kafka for event-driven processing.
- Performed unit testing with JUnit and ensured data accuracy across environments.

BirlaSoft | Java Developer | India | Aug 2022 – Aug 2023

- Developed enterprise-level applications using Java, Spring MVC, and REST APIs.
- Configured and deployed web services on WebLogic and Tomcat servers.
- Created and optimized PL/SQL procedures in Oracle for data analytics workflows.
- Contributed to automation and build processes using Maven and Jenkins.
- Participated in Agile sprints and collaborated with QA for smooth release cycles.

PROJECTS

1. Real-Time Reporting **Microservices** Platform: Developed **microservices** using **Java**, **Spring Boot**, and **REST APIs** for real-time financial reporting; optimized **SQL** Server queries and automated reports using Apache POI and Jaspersoft.
2. **Cloud-Enabled Data** Exchange & Analytics Module: Built **cloud-based data pipelines** on **AWS (Lambda, RDS, S3)** integrating **SOAP/REST APIs**; automated **CI/CD** deployments with **Jenkins** and **GitHub** Actions for analytics reporting.
3. Scalable Backend Framework for Report Automation: Created a reusable **Spring Boot** framework automating report generation with Jaspersoft and Apache POI; implemented **CI/CD** workflows ensuring consistent, defect-free releases.

SOFT SKILLS

Analytical Thinking, Problem Solving, Collaboration, Communication, Adaptability, Leadership, Time Management, Critical Thinking

CERTIFICATIONS

- Intermediate Technical Interview Prep (Advanced) – CodePath
- Cloud-GCP – Great Learning
- Blockchain and its applications – NPTEL
- Java – HackerRank

EDUCATION

Master of Science in Computer Science, University of Bridgeport, CT – May 2025
