

SHUBHAM HARISHCHANDRA MADHAVI

DATA ANALYST | POWER BI & SQL SPECIALIST

| +1 201 526 5040 | shubham.madhaviiii@gmail.com | linkedin.com/in/shubhammadhavi/

PROFILE SUMMARY

Data Analyst with 2+ years' experience using **Power BI, SQL, Python**, and **ETL automation** to deliver insights. Proven track record in **cost reduction**, **improving forecasting accuracy**, and **process optimization**. Skilled in **data modelling (star schema, DAX)**, **CRM integration**, and **statistical methods (A/B testing, cohort analysis)** to drive decisions

EDUCATION

Master's in Computer Science | Pace University, New York, NY

May 2024

Bachelor's in Computer Engineering | Mumbai University, India

May 2021

EXPERIENCE

Data Analyst Intern | Baker Trading | Remote

Oct 2024 – Jun 2025

- Delivered a Power BI star schema model with DAX measures that amended YTD PCL, rolling drawdown, & trade hit rate accuracy by 15%
- Enabled 100% secure audience-specific reporting by configuring scheduled refreshes & implementing row-level security (RLS)
- Reduced data preparation time by 30% (90 to 63 minutes/run) by automating ETL pipelines from REST APIs to PostgreSQL using Python
- Increased data integrity by 25% through SQL-based quality checks (nulls, range validations) before integration into back testing workflows
- Upgraded strategy evaluation efficiency by 20% by delivering validated, cleansed, & timely datasets for analytics teams

Data Analyst | Safeline Electricals | India

Mar 2021 – Aug 2022

- Reduced budget deviations by 15% by developing a Power BI cost variance dashboard with Power Query & DAX for variance analysis
- Improved vendor issue resolution turnaround by 20% through SQL-based performance monitoring with automated alerts
- Enhanced overall sales forecasting accuracy by 12% by integrating Salesforce CRM data into pipeline performance reporting
- Amplified overall reporting efficiency by 25% by consolidating financial, vendor, & CRM datasets into unified dashboards
- Shortened decision-making cycles by 18% by delivering timely, data-driven insights across finance, operations, & sales teams

Data Analyst Intern | Indian Oil Corporation Ltd. | India

Jan 2021 – Feb 2021

- Reduced fuel distribution data discrepancies by ~20% by cleaning & reconciling 70K+ geographic records using Python
- Contributed to achieving ~15% transportation cost savings by developing Tableau dashboards that optimized route efficiency
- Boosted strategic decision-making speed by 25% through automated weekly performance reports for regional managers
- Escalated overall data accuracy by 20% by standardizing and validating highly critical geographic fuel distribution datasets
- Enhanced overall regional operational efficiency by 18% by delivering timely, insight-driven transport performance analytics

PROJECTS

E-Commerce Sales Analytics (Power BI + Python)

Oct 2024

- Standardized dimensions, imputed dates, & modelled datasets in dbt, resolving inconsistent product hierarchies and transaction issues
- Built Power BI dashboards with DAX measures, implementing incremental refresh & row-level security to enhance reporting accuracy

Credit Card Fraud Detection (Python)

Sep 2024

- Applied SMOTE, stratified cross-validation, & feature monitoring to address imbalanced datasets and data drift, tracking precision-recall
- Automated feature engineering and retraining pipelines, using Seaborn & Matplotlib to visualize anomalies and enhance performance

CERTIFICATIONS

- Salesforce Trailhead (in progress)
- Google Data Analytics Professional Certificate
- Project Planet USA (Winner) — \$15,000 Grant, C Mentoring

TECHNICAL SKILLS

- Databases:** SQL (CTEs, Window Functions), PostgreSQL, MySQL, SQL Server, Star Schema, Fact/Dim Modelling, Data Quality Checks
- Analytics Methods:** Cohort Analysis, Hypothesis Testing, T-tests, Confidence Intervals, Outlier Detection, Rolling Averages
- ETL & Automation:** Python (Pandas, NumPy), dbt (basics), Prefect/Airflow (basics), REST APIs, JSON
- BI & Visualization:** Power BI (DAX, Power Query, RLS), Tableau, Plotly, Streamlit
- Excel:** Pivot Tables, Power Query, XLOOKUP, Basic Macros
- CRM Tools:** Salesforce (Data Management & Reporting)
- Cloud Platforms:** Google BigQuery, AWS S3 (familiar)

CORE COMPETENCIES

Data Modelling | Dashboard Development | ETL Pipeline Automation | CRM Data Integration | Data Quality Validation | Business KPI Reporting | Statistical & Predictive Analytics | Data Analysis & Visualization | Process Optimization | SQL Query
