PROFESSIONAL SUMMARY:

- I have 9+ years experience in Cross Platform Web Application Development using back-end and front-end technologies like NodeJs, Python, PHP, JavaScript, React, MongoDB, MySql, PostgreSQL.
- Experience in creating and implementing the REST API's using NodeJs, Python, PHP
- Developed large-scale, real-time application using NodeJs, Socket Programming, MongoDB.
- Integrated SOAP APIs by sending request & response in XML format.
- Experience on Redis, Memcached Mechanism, Microservice Architecture.
- Adapted Model-View-Controller (MVC) frameworks for developing web applications.
- Experience with Version Control tools like Git, SVN for source Code version management.
- Utilized "agile" process to streamline development process with iterative development and that include daily scrum with team.

TECHNICAL SKILL SETS:

Back End	Node.js, Python, PHP
Front End	JavaScript(ES6), React, AngularJs, HTML5, CSS
Other	RESTFulAPI, NPM, Socket Programming, AWS S3, JSON, SOAP, XML, Docker, Azure Functions(Serverless Application), Elasticsearch
Frameworks	Express(NodeJs), Flask(Python), DRF(Django REST Framework)
Databases	MongoDb, MySql, PostgreSQL
Caching Mechanism	Redis, Memcached
Version Control	GIT, SVN
Debugging Tools	Postman, Firebug, Jasmine, Jest, Chrome Developer tool
SDLC	Waterfall, Agile

WORK EXPERIENCE:

Organization: ISTI Solutions, USA

Role: Technical Lead

Duration: 2nd Feb 2024 – 29th Nov 2024

Responsibilities:

- Involved in writing application-level code to create the Middleware using Azure Functions.
- Hands-on experience in developing and deploying loose coupled microservices.
- Created multiple REST API for CRM application using core Python, MySQL.

- Worked with JSON web tokens and Passport for authentication and authorization security configurations using Node.js.
- Experience in npm commands and using package.json for managing dependencies and dev-dependencies of NodeJS applications.
- Used GitHub to maintain the repository.
- Used Agile methodology and participated in Scrum meetings.
- Used Jenkins for continuous integration
- Involved in code reviews and improvisation.
