

SIDDHANT SUNIL NASARE

📍 Tempe, AZ, USA 📞 623-297-9075 ✉ siddhant.nasare2608@gmail.com 🌐 <https://linkedin.com/in/siddhant-nasare/>

PROFESSIONAL SUMMARY

Data Engineer and Analyst with a strong background in requirements gathering, process improvement, and data analysis to deliver actionable business insights. Proven track record of reducing manual deployment efforts by up to 80% through streamlined processes and SQL query optimization. Skilled in collaborating with stakeholders and cross-functional teams to translate business needs into technical solutions, leveraging tools such as Jenkins and Control-M to enhance data integration and governance. Proficient in automating workflows with JavaScript to improve efficiency and reduce errors. Experienced in Agile development, actively participating in sprint planning, daily stand-ups, and iterative delivery to ensure continuous improvement and timely execution of project goals. Adept at bridging the gap between technical teams and business objectives to support scalable analytics, cloud migration, and data-driven decision-making.

EDUCATION

Arizona State University

Aug 2024 - May 2025

Master's degree, Business Analytics (GPA: 3.90)

Coursework: Python, DBMS, Machine Learning (Bayes Theorem, SVM, Sentiment Analysis, Latent dimensionality, Random Forest, Decision Tree, Neural Networks), Analytical Decision Modelling, Redshift, S3 bucket, AWS

Savitribai Phule Pune University

Aug 2017 - June 2021

Bachelor's degree, Electronics Engineering (GPA: 3.81)

WORK EXPERIENCE

Accenture | Data Engineer

Aug 2021 - July 2024

Collaborated on a data-driven initiative at Bank of Ireland, a leading financial institution renowned for its diverse offerings in life insurance, pensions, general insurance, investments, and savings contributing to the enhancement of data integrity and governance across enterprise systems. Moreover, I was engaged in end-to-end SDLC.

- Collaborated on requirements gathering, documenting, facilitating workshops with stakeholders, and translating business needs into technical specs. Collaborated with stakeholders to define data requirements and translate them into functional specifications; supported UAT to ensure solution met business needs.
- Developed source-to-target mappings with logical implementation.
- Assisted in a team-driven context with requirements engineering, project coordination, and system development.
- Enabled direct check-in of objects from a local to a downstream environment and eliminated unnecessary intermediate steps, streamlining the deployment process which improved efficiency with target environments which saved 80% of the manual work.
- Utilized Jenkins to automate the testing of data models, ensuring that any changes to data sources or transformations were thoroughly tested and validated before deployment, minimizing errors, and cleaned datasets to improve data quality.
- Collaborated and performed A/B testing with cross-functional teams to support data modelling, schema design, and reporting.

PROJECTS & OUTSIDE EXPERIENCE

Wathare Infotech Solutions | Software Engineer Intern

Aug 2020 - July 2021

- Conducted functional compliance testing of company products.
- Developed software solutions for data acquisition, analysis, and cloud transmission, enabling detailed monitoring of machine performance.

CAPSTONE EXPERIENCE

Teradyne | Business Analyst Intern

Jan 2025 – May 2025

- Optimized ASIC inventory management at Teradyne by developing a data-driven buffer stock model.
- Built an algorithm leveraging historical data, demand forecasts, and supply chain variables.
- Improved planning accuracy and reduced bias in inventory decisions.
- Minimized inventory costs and improved responsiveness of the customers.

SKILLS

- **Technical Skills & Tools:** SQL, PL/SQL, Python, ETL pipelines, Data Modelling, Data Quality
- **Other Skills/Experience:** Data Analysis, Advanced Analytics, Machine Learning, Data Visualization, Tableau, Dashboards, Reporting Automation, KPIs, A/B Testing, Storytelling, Data Cleaning, Pivot Tables, Business Insights, Statistical Analysis, Communication, Problem-Solving, Analytical Thinking, Stakeholder Engagement, Stakeholder Communication, User Acceptance Testing (UAT)
- **Business & Financial:** Forecasting, Risk Assessment
- **Communication & Leadership:** Presentation, Collaboration

NOTABLE PROJECTS

Automated Student ID Verification: Developed a computer vision-based system using EasyOCR and DeepFace to automate ID text extraction and photo matching, reducing verification time from hours to seconds and improving compliance for international student services.

CERTIFICATIONS

- AZ-900: Microsoft Azure Fundamentals
- DP-203: Data Engineering on Microsoft Azure
- DP-300: Administering Microsoft Azure SQL Solutions

AWARDS

- **Star of the Month** | Star of the month in Feb 2023 at Accenture.
- **Project Presentation Competitions** | Participated in various Inter College Levels and State Levels Project presentation competition.
