SUMMARY

Business Data Analyst with experience in delivering actionable insights and driving business outcomes in banking, finance, healthcare, and tech sectors. I am skilled in data modeling, business intelligence, KPI analysis and predictive analytics, with a proven track record of developing cost-saving solutions and enhancing reporting accuracy. Successfully collaborated with stakeholders to optimize ETL workflows and develop intuitive dashboards using SQL, Python, and Tableau. Aims to leverage expertise in Agile environments and SDLC methodologies to support strategic decision-making and business transformation.

TECHNICAL SKILLS

- Programming Languages: Python, SQL, R
- Data Analysis Libraries: NumPy, Pandas, Scikit-learn, Seaborn, Matplotlib, SciPy
- Databases: MySQL, PostgreSQL, SQL Server, MongoDB
- BI Tools & Visualization: Tableau, Power BI, MS Excel (VLOOKUP, PivotTables, VBA)
- Data Engineering: SSIS, ETL (Extract, Transform, Load), Data Warehousing
- Analytics Competencies: KPI Analysis, Forecasting, Data Governance, Business Case Development, Financial Modeling, Text Mining
- Tools & Collaboration: AWS (EC2, S3, Lambda), JIRA, Jenkins, Git, Jupyter Notebook
- Methodologies: Agile (Scrum, Kanban), Waterfall (BRD, FRD, UAT), SDLC

PROFESSIONAL EXPERIENCE

- Data Analyst | JP Morgan Chase & Co. | OH March 2025 – Current
 - Spearheaded a cost optimization analytics initiative using SQL and R, reducing operational expenses by 20% across 10+ business units.
 - Automated ETL pipelines with AWS Lambda and Python, cutting data latency by 30% and improving reliability.
 - Developed interactive Tableau and Shiny dashboards to visualize customer engagement, increasing executive adoption by 40%.
 - Collaborated with stakeholders to gather requirements and translate business needs into technical solutions, accelerating delivery by 25%.
 - Engineered Excel-based scenario models supporting client negotiations, boosting deal closure rates by 25%.
- Data Analyst Intern | BNY Mellon | OH September 2024 – December 2024
 - Executed Python-based sentiment analysis, improving customer insight accuracy by 15%.
 - Constructed SQL data models for investment reporting, enhancing analytical depth by 20%.
 - Built Power BI dashboards with complex data relationships, reducing report generation time by 25%.
 - Enforced data validation and cleansing protocols in SQL and Python, increasing dataset integrity and compliance.
 - Optimized PostgreSQL queries and implemented security measures for sensitive financial data.
- Business Analyst | AirBnb | India September 2021 – July 2023
 - Designed and deployed Tableau KPI dashboards, reducing project delays by 15% through real-time monitoring.
 - Automated JIRA workflows for issue management, handling 200+ tickets with a 30% faster turnaround.
 - Authored BRDs/FRDs and led UAT sessions, ensuring 100% test coverage and smooth feature launches.
 - Conducted gap analysis and implemented process improvements, enhancing operational efficiency by 20%.
 - Managed ETL data migration to Snowflake, centralizing analytics and improving query performance.
- Business Analyst Intern | Cipla | India February 2021 – August 2021
 - Collaborated on KPI analysis for supply chain, improving inventory accuracy by 12%.
 - Analyzed 100K+ records via SQL and Excel, identifying cost savings of 8%.
 - Built Tableau dashboards for production and sales metrics, enabling real-time insights.
 - Modeled financial scenarios for vendor contracts, informing budget decisions and optimizing contract negotiations.
 - Documented user stories and process flows in JIRA, supporting digital reporting transformation.

EDUCATION

- Kent State University | Master of Business Analytics | August 2023 – December 2024
- Osmania University | Bachelor of Business & Commerce | July 2018 – August 2021

ACADEMIC PROJECTS

- Sales insight – Brick & Motor Business | Power BI, SQL
 - Crafted a Power BI dashboard visualizing AtliQ hardware sales across regions, improving rep-level performance tracking.
- HR Data analytics – HR Domain | Power BI, Excel
 - Automated manual reporting by developing HR analytics dashboards, reducing errors by 15% and saving 4 hours daily.
- Customer Retention Analytics: – Customer Churn | Python, Pandas, Power BI
 - Developed a KNN churn prediction model with 83% accuracy, reducing client attrition through data-driven interventions.

CERTIFICATIONS

- Accenture North America: Data Analytics and Visualization
- Tata Data Visualization: Empowering Business with Effective Insights
- Deloitte Australia: Data Analytics
- Lean Six Sigma Certified
