WORK EXPERIENCE

University of Connecticut – CT, USA | Business & Data Analytics Assistant

Aug 2024 – Present

- Analyzed sales transactions, and customer preferences to identify opportunities for increasing revenue and reducing waste.
- Developed simple dashboards and Excel reports to track daily sales, peak hours, and popular products, improving staff scheduling and inventory planning.
- Partnered with café management to recommend promotional strategies, contributing to a **~10%** increase in monthly sales.
- Trained and supervised **5+** student workers, ensuring smooth operations and accurate reporting of sales and expenses.
- Provided ad-hoc business insights that helped streamline purchasing decisions and improve customer satisfaction.

Adani Power Limited – Gujarat, India | Data Analyst

Aug 2022 – Aug 2023

- Contributed to data model development and reporting pipelines, helping improve data reliability by **~15%**.
- Collaborated with engineering, finance, and regulatory teams to track **20+** KPIs aligned with compliance standards and business goals.
- Supported automation of recurring reports, reducing manual effort by **~40%** and improving report delivery timelines.
- Assisted in designing data process flows, **ETL** mappings, and **KPI** definitions to help stakeholders better understand performance metrics.
- Prepared and presented data insights for leadership reviews, enabling informed decisions on cost savings and resource allocation.
- Assisted in troubleshooting data inconsistencies and performed quality checks to ensure accurate reporting across multiple systems.
- Participated in cross-functional meetings to gather requirements and provide recommendations for improved reporting efficiency.

Cognizant – Telangana, India | Programmer Analyst Trainee

Feb 2022 – Jul 2022

- Assisted business and technical teams by documenting requirements and ensuring clarity in project deliverables.
- Supported workflow reviews to identify process gaps and contributed suggestions for improvements.
- Optimized **SQL** queries to extract and validate data, helping improve data accuracy and reduce reporting errors by **~10%**.
- Created simple process flows and documentation in MS Visio to capture business needs in a structured format.
- Collaborated with **QA** teams to review test cases and validate reports against requirements, improving accuracy.
- Participated in sprint planning sessions and team discussions, gaining exposure to agile delivery practices.

Shoshin Solutions – Telangana, India | Data Analyst Intern

Oct 2021 – Dec 2021

- Assisted in creating and maintaining **Excel**-based reports that tracked project performance and **KPIs**, improving visibility for project teams.
- Helped prepare requirement documents, reports, and presentations to support project execution.
- Partnered with cross-functional teams during **UAT** cycles, validating reports against live production data to ensure consistency.
- Analyzed datasets to identify patterns and anomalies, contributing insights that supported more reliable forecasting.
- Supported leadership with weekly and monthly reports, helping them stay on top of performance and compliance.

EDUCATION

Master of Science in Business Analytics and Project Management

University of Connecticut, School of Business – Hartford, CT

Jan 2024 - Present

GPA 3.86 / 4.00
