Summary

Data Analyst with 3+ years of experience transforming raw data into actionable insights via automated ETL pipelines, API integrations, and interactive dashboards using SQL, Python, and Power BI. Skilled in machine learning for predictive analysis, regression modeling, and statistical evaluation, with hands-on experience in EDA, data cleaning, visualization, and feature engineering. Proficient in AWS, data modeling, and KPI tracking, delivering scalable, compliant, and well-governed data solutions aligned with GDPR and ISO 27001 to support evidence-based decisions.

Experience

Data Analyst Intern, Dharan Innovation LLC (Remote) Aug 2025 – Present

- Designing and optimizing ETL pipelines and API integrations to handle large datasets from multiple sources, improving data accuracy by 25%.
- Conducting exploratory data analysis (EDA) and KPI tracking to identify performance gaps and support data-driven decision making.
- Developing and maintaining Power BI dashboards to visualize business metrics, reducing manual reporting efforts by 40%.
- Assisting with cloud infrastructure setup on Amazon Web Services (AWS) and implementing data governance standards for secure analytics workflows.

Data Analyst, Capstone Project, University of Arizona Jan 2025 – May 2025

- Analyzed graduate course enrollment data to identify demand patterns and bottlenecks across multiple terms using regression analysis.
- Developed a Course Bottleneck Index (CBI) model using R and Python to improve academic planning accuracy by 30%.
- Designed Power BI dashboards and applied KPI tracking for visualizing course efficiency and capacity metrics.
- Ensured data quality and compliance alignment with GDPR and ISO 27001 standards for institutional data reporting.

Junior Data Analyst, Capital One (Contract) Jul 2023 – Jul 2024

- Automated ETL pipelines using Python, SQL, and AWS, reducing manual reporting time by 40% and improving data reliability.
- Conducted A/B testing and regression analysis to evaluate customer behavior trends, improving campaign accuracy by 12%.
- Designed Power BI dashboards for product performance and KPI tracking, accelerating executive reporting cycles by 15%.
- Integrated APIs and Snowflake data sources for near real-time analytics aligned with SOC 2 compliance standards.

Business Analyst Intern, Keka Jun 2022 – Jun 2023

- Developed SQL and Python-based pipelines for HR analytics, enhancing data refresh speed by 30%.
- Created Power BI dashboards for retention and payroll metrics, enabling KPI tracking and workforce optimization insights.
- Supported data governance initiatives and ensured data handling compliance under GDPR policies.

Projects

F1 Racing Data Analysis

[Link for the Project](#)

- Investigated live Formula 1 race data across multiple circuits to identify key performance factors such as tire strategy, pit stops, and qualifying position.
- Developed time-series visualizations to compare driver performance and race dynamics across events.
- Tools Used: R, f1dataR, ggplot2

The Haunted Datasets

[Link for the Project](#)

- Mapped 700+ haunted sites across the U.S. using geospatial coordinates and overlaid them with population data to reveal regional clustering.
- Performed text mining on location descriptions to extract common paranormal themes and patterns.
- Tools Used: R, ggplot2, dplyr, text analysis

Job Market Analysis

[Link for the Project](#)

- Extracted and cleaned 500+ job listings from online portals to analyze trends in required skills, qualifications, and tools.
- Built summary document to compare in-demand skills across data roles and geographies.
- Tools Used: Python, Pandas, Excel, Octoparse

Education

University of Arizona, MS in Information Science

Oct 2023 – May 2025

- GPA: 3.7/4.0
- **Coursework:** Data Visualization and Analysis, Database Development and Management, Data Mining, Machine Learning, Deep Learning, Natural Language Processing, Neural Networks, and Capstone Project

Certifications

The Data Analyst Course, Udemy Certified

Jan 2024

UC-1c7de946-8281-434b-8c63-fabbc55143a1

Skills

Analytical Skills:	Data Analysis; Data Cleaning; ETL Development; Exploratory Data Analysis (EDA); Regression Analysis; Statistical Analysis; A/B Testing; Workflow Automation; Business Process Optimization; KPI Tracking
Technical Skills:	SQL; Python; R; Power Query; API Integration; Data Modeling; Data Validation; Predictive Analytics; Machine Learning; Feature Engineering; Snowflake
Tools & Platforms:	Power BI; AWS (Amazon Web Services); Azure; MySQL; Jupyter Notebook; RStudio; Git; Excel (Advanced); PowerPoint; Google Workspace
Business & Soft Skills:	Stakeholder Collaboration; Communication; Problem Solving; Requirements Gathering; Documentation; Presentation; Adaptability; Attention to Detail; Time Management; GDPR Compliance; ISO 27001; SOC 2 Compliance
