

Technical Skills

Programming Languages: Python, R, SQL, PySpark
Machine Learning: Regression, Classification, Clustering, Ensemble Methods
Deep Learning: Neural Network, CNNs, RNNs, Transformers
Generative AI: Large Language Models(LLMs), Hugging Face, LangChain, Retrieval Augmented Generation (RAG), Prompt Engineering
Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Power BI, Tableau, SAS Studio, R Studio, Excel
Data Engineering: ETL Pipelines, Data Wrangling, Feature Engineering
Cloud & MLOps: AWS, Azure, Docker, Kubernetes, MLflow, Git
Tools: Jupyter, Databricks, Github , VS Code

Profession Experience

Pigybak **Data Analyst Intern| Remote, USA | Aug 2025 - Present**
• Developed and optimized SQL queries and **python** scripts to **clean** and **analyse large datasets**, improving data accuracy and reliability for business reporting.
• Designed interactive dashboards in **Tableau** to **visualize KPIs**, enabling stakeholders to track user engagement and product performance in real time.

Skills Used : Python, SQL, Data Analysis, API integration, Generative AI, Tableau, storytelling

Ecobat **Data Analyst |Remote, USA | Feb 2024 – May 2025**
• Designed and automated **Power BI/Tableau dashboards** tracking supplier KPIs, enabling leadership to optimize sourcing performance.
• Spearheaded **data-driven spend analysis**, delivering a **15% vendor spend reduction** through advanced statistical modelling and strategic sourcing insights.
• Engineered and normalized **large-scale procurement datasets** using **SQL and Python**, directly supporting **contract negotiations and vendor consolidation**.
• Applied **Generative AI LLMs & Lang Chain** to automate **procurement workflow documentation & reporting**, reducing manual analysis hours

Skills Used: Power BI, SQL, Python, Generative AI, Hugging Face, Lang Chain, RAG, Data Cleaning, Data Normalization, KPI Tracking, Jira, Procurement Automation, UAT Testing

Innova Solutions **Software Engineer |Remote, India | May 2022 – Oct 2022**
• Developed and deployed **AI/ML models** powering **real-time features** in an enterprise **Time-Sheet application**, integrating **QR-based user tracking** and analytics via **Python**.
• Automated **15+ ERP workflows** using **Apache Kafka & cloud-native** services, saving **40+ hours weekly** in operational overhead.
• Implemented **LLM-powered modules** for automated **report summarization** and anomaly detection, enhancing ERP reporting capabilities

Skills Used : Python, CloudFront, AWS, LLM,Real time Analysis, CI/CS Pipelines, API integration, Generative AI

Cerulean Information Technology **Software Engineer |Remote, India | Aug 2020 – May 2022**
• Architected modular **AI/ML workflows** with **TensorFlow, PyTorch**, and **MLflow**, supporting the full **AI model lifecycle** from prototyping to production monitoring.
• Built **personalized recommendation engines** using **behavioural data + collaborative filtering**, improving engagement and user retention.
• Designed and deployed **real-time data pipelines** with **AWS Lambda, S3, DynamoDB, Elasticsearch, Athena**, enabling high-volume streaming analytics.
• Enhanced **MLOps** processes with **Kubernetes** and **CI/CD**, ensuring scalable, version-controlled AI model deployment.

Skills Used : TensorFlow, PyTorch ,Hive, MLflow, Machine Learning, Deep Learning, AI workflow Design, MLOps, Model Deployment

Cisco Systems **Software Engineer |Bangalore India | Aug 2018 – July 2020**
• Developed and deployed **Customer Lifetime Value (CLV)** and **recommendation models**, generating **\$10M** in **incremental revenue** and a **7% increase in monthly sales**.
• Built **collaborative filtering engines** with seasonal adjustments, validated via **A/B testing**, boosting sales by **\$100k/month**.
• Launched **real-time lead scoring models** using **tree-based algorithms & FastAPI on Kubernetes**, improving **lead conversion rates by 20%**.
• Applied **experimental design** and **structured testing frameworks** to validate **recommendation system performance** and quantify conversion uplift.
• Partnered with engineering teams to ensure **AI/ML performance benchmarks** aligned with enterprise KPIs.

Skills used: Machine Learning, Tree-based Algorithms, customer Lifetime Value Modelling, Recommendation Engines, Predictive Analytics, A/B testing, FAST API, Structured Testing Frameworks.

Education

California State University Los Angeles	MSIS USA 2024-2025
R.V.College of Engineering	MCA India 2015-2017
Bangalore University	BCA India 2011 – 2014
