Work Experience

Power BI Developer

Witherite Law Group

01/2023 – Current

Dallas, TX

- Developed dynamic Power BI dashboards using DAX and SQL, enhancing decision-making efficiency by 35%.
- Conducted data validation, improving analysis accuracy by 18% and ensuring data integrity.
- Configured and optimized Power BI datasets, increasing data readability by 25%.
- Migrated traditional reporting to Power BI, streamlining processes and boosting efficiency by 15%.
- Automated critical reports in Power BI, saving departments 10 hours of manual work weekly.

Report Developer

Beck Technology

05/2021 – 09/2022

Dallas, TX

- Designed, developed, tested, and maintained custom reports using DevExpress Report Designer, C#, and Power BI to meet business requirements.
- Collaborated with clients to gather requirements and estimate effort for custom report development.
- Created and customized Power BI visualizations, including combination charts, slicers, maps, scatter plots, cards, and KPIs.
- Developed and optimized SQL queries for data validation, reducing discrepancies by 20%.

Data Analyst

Harv Eker International

06/2018 – 01/2020

Bellingham, WA

- Leveraged SQL and Google Analytics dashboards to generate real-time insights and track key performance indicators (KPIs).
- Designed and executed A/B tests to improve conversion rates and reduce customer churn.
- Analyzed consumer behavior, marketing performance, and investment trends to deliver actionable insights.
- Created and presented reports to management using Excel, utilizing Pivot Tables, VLOOKUPS, and advanced formulas for data reconciliation.

Senior Software Engineer

Accenture

05/2011 – 03/2012

Mumbai, IN

- Utilized SQL and SAP Business Objects 3.1 (DESKI, WEBI Rich Client) for data analysis and business intelligence reporting.
- Designed advanced reports in SAP Business Objects using report-level filters and contexts for optimized data presentation.
- Leveraged Web Intelligence features such as filters, conditions, breaks, sorting, Slice & Dice, Input Controls, Master/Detail, Cross Tabs, charts, and alerts to enhance reporting.

- Supported project implementation, including UAT, end-user training, and post-go-live support to ensure smooth adoption.

Manager IT BPM

Antwerp Diamond Bank

09/2008 – 05/2011

Mumbai, IN

- Designed, analyzed, and maintained banking system reports on Flexcube (FCR/FCC) schemas.
- Created templates, queries, and performed data analysis using SQL, MS Access, and Excel, generating daily, weekly, and monthly reports on sales, profit, and targets.
- Developed KPI reports using SQL and SAP Business Objects, reducing manual reporting time by 8 hours weekly and minimizing data entry errors.

Associate Consultant

Oracle Financial Services Limited

5/2007 – 08/2008

Mumbai, IN

- Created customized transactional and analytical reports for five major clients, improving retention and engagement.
- Analyzed data using SQL and provided insightful reports via Excel and SAP Business Objects to support the commercial team.
- Designed and updated WEBI reports, utilizing slice-and-dice, drill-up, and drill-down techniques for enhanced data exploration.
- Optimized the Business Objects universe to streamline data access, manipulation, and organization.

System Integration - Intern

CMC Limited

08/2005 – 02/2007

Mumbai, IN

- Analyzed requirements and developed functional specifications, design documents, and unit test plans.
- Designed and optimized SQL routines, performing data migration using the SQL Loader utility.
- Created and managed database objects, including schemas, tables, stored procedures, and functions, ensuring data accuracy and efficient manipulation.
- Imported, exported, and processed large datasets in multi-million-row databases while meeting tight deadlines.
