Experience

Freelance Data Analyst

Dec 2024 – Present

Analytics Engineer

Remote

- Orchestrated LLM-augmented agent workflows to automate data ingestion and deliver SQL-powered dashboards in Power BI and Tableau, enabling real-time operational insights for clients in healthcare and finance.
- Accelerated exploratory data analysis using Python, R, and LLM-based agents to uncover actionable trends and generate insights, leading to strategic recommendations that improved business KPIs by up to 18%.

WIPRO (Client: CISCO)

Jan 2024 – Nov 2024

Data Analyst II

Morrisville, NC

- Developed automated data validation pipelines using Python and SQL, integrating AWS services—including AWS Glue, Amazon S3, and AWS Lambda—to enhance supply chain data integrity and reduce inconsistencies by 36%.
- Led Python-based anomaly detection scripts to identify inconsistencies in batch data pipelines, improving data quality and reducing processing errors by 20%.
- Engineered SQL-based automation scripts for transactional time series data verification, optimizing data validation workflows and reducing manual efforts by 40%.
- Collaborated with agile cross-functional teams, including developers, business analysts, and quality assurance specialists, to identify and resolve critical defects, enhancing system stability and performance.
- Analyzed data trends to proactively identify potential issues, enabling early intervention and mitigating disruptions in the production environment.

E1 Inc.

Aug 2022 – Oct 2023

Data Analyst

Roseville, CA

- Generated comprehensive reports in Workday HCM, enhancing HR data accuracy by 15% and equipping leadership with actionable insights to optimize workforce planning and ensure regulatory compliance.
- Utilized business intelligence tools to develop interactive Apache Superset dashboards, enabling real-time tracking of key performance indicators (KPIs) and facilitating data-driven decision-making.
- Validated and optimized the performance of a Workday Extend application using JSON, increasing HR system efficiency by 21%.
- Designed and implemented a custom job profiles application using PHP Laravel, seamlessly integrating with Workday to improve tracking efficiency by 32%, reduce manual effort, and enhance data accuracy across the organization.
- Managed tasks and project progress in Jira, collaborating with cross-functional teams to streamline workflows, resolve issues, and achieve a 20% improvement in project delivery efficiency.

iMotion Physical Therapy

June 2020 – Dec 2021

Data Analyst

Fremont, CA

- Automated patient data entry processes using SQL and Python, reducing manual errors by 43% and enhancing data accuracy in healthcare records.
- Optimized patient data transfer through ETL pipelines, ensuring seamless data integration, improving accuracy, and enhancing patient care efficiency.
- Developed interactive Tableau dashboards powered by SQL queries, enabling leadership to monitor patient retention trends and improve appointment adherence rates by 12%.

Projects

Anime Recommendation AI Agent | *Lindy AI, APIs, LLMs*

- Built **OtakuPal**, a conversational AI agent using **Lindy AI** and the **AniList API** for personalized anime recommendations.
- Utilized **LLMs** to interpret user preferences and provide contextual suggestions through a chat-style interface.

Conversational Data Analyst Tool with DeepSeek-R1 | *Python, Pandas, DuckDB, OpenWebUI, DeepSeek-R1*

- Built an AI analyst agent using **OpenWebUI**, **DeepSeek-R1 (LLM)**, and **DuckDbAgent** to query CSV datasets in natural language.

Technical Skills

Languages: Python, R, SQL, JavaScript, Bash

Technologies: Tableau, Power BI, Excel (Pivot Tables, VLOOKUP, Macros), Workday HCM, React.js, MongoDB, NoSQL

Data & Cloud Tools: AWS, MySQL, Oracle, ETL Pipelines, JIRA, Toad for Oracle, Apache Spark, Airflow

Concepts: Data Governance, KPI Tracking, Business Reporting, A/B Testing, Agile Methodology, Stakeholder Communication

Education

University of California - Riverside

June 2022

Bachelor of Science in Business Administration and Information Systems

CA, Riverside

- **Relevant Coursework:** Statistics and Probability, Data Visualization, SQL and Databases, Python Programming, Intro to Data Science, Business Intelligence
