EDUCATION

The University of Texas at Dallas

Master of Science in Computer Science, CGPA – 3.9/4

Aug 2023 – May 2025

TECHNICAL SKILLS

- **Languages & Databases:** Python, Java, JavaScript, C, C#, R, SQL, HTML, CSS, MySQL, MongoDB, Azure Cosmos DB
- **Frameworks & Tools:** React.js, Node.js, Django, .NET, Bootstrap, GitHub, Jira, Postman
- **Platforms:** AWS, GCP, Tableau, Power BI, Docker, Unix, Visual Studio, Databricks, Linux, SAS
- **Certifications:** AWS Certified Developer – Associate, Software Engineering - Cisco, Data Analytics - Accenture, Developer Program - Accenture, Database Foundations - Oracle, Foundations of Data Science - PadhAI.

PROFESSIONAL EXPERIENCE

The University of Texas at Dallas

Jan 2025 – May 2025

Student Assistant

- Assisted students with understanding core **software development concepts**, debugging code, and improving proficiency in **Java, Python, and C++**.
- Supported the development of academic web applications by contributing to **frontend and backend features** using **HTML, CSS, JavaScript, and Python**.
- Participated in the maintenance of internal tools, performing **bug fixes, code reviews**, and version control using **Git**.
- Documented workflows and updated technical guides, improving new student developer onboarding by 20%.

LTI Mindtree

Aug 2021 – Jul 2023

Software Engineer

- Built secure, scalable cloud systems using **C#, .NET, React, and SQL**, reducing latency by **35%** and supporting **50000 users**.
- Improved backend performance by **25%** through **asynchronous programming** and debugging in **distributed GCP architecture**.
- Maintained **FDA-compliant documentation** and delivered in an **Agile** setup for enterprise-grade releases.
- Resolved critical issues via **root cause analysis**, reducing downtime by **40%** and boosting system reliability.
- Mentored juniors and enforced secure coding, **QC testing**, and **MFA integration**.

Cipla Ltd

Jul 2019 – Jul 2021

Data Analyst

- Analyzed pharmacy **claims, credit, and eligibility datasets** using **SQL and Python** to support formulary and pricing decisions.
- Automated reporting workflows using **Azure and Python**, improving clinical and financial data reliability and cutting manual errors by 35%.
- Designed interactive **Power BI** dashboards to aid business decisions, reducing reporting time by 30% and improving forecasting accuracy by 22%.
- Built models to evaluate the financial impact of **formulary changes**, enabling data-driven decisions in **drug distribution** and cost control.
- Collaborated with cross-functional stakeholders in **medical affairs** and finance to align reporting needs and reduce turnaround time by 30%.

PROJECTS

Secure File Sharing Web App

Feb 2025 – Present

- Built a secure file-sharing app using **Node.js, Express, and MongoDB**, with **JWT-based authentication** and **bcrypt encryption** to ensure user-level access control.
- Implemented **asynchronous APIs** and modular architecture to enhance performance and prepare the system for scalable deployment.

Library Management System

Jul 2024 – Dec 2024

- Developed a full-stack library system using **Python, Django, MySQL, and JavaScript**, featuring secure borrower management and accurate fine tracking.
- Created a responsive UI with **HTML, CSS, Bootstrap, and jQuery** to ensure seamless usability across devices.

Healthcare Claims and Financial Impact Dashboard

Mar 2023 – Jun 2023

- Analyzed sample **pharmacy and medical claims** datasets using **SQL, Python, and Databricks** to explore cost drivers and formulary trends.
- Designed interactive dashboards in **Power BI and Excel**, showcasing insights for academic review and decision support simulation.
