Education

Illinois Institute of Technology

Master's in Computer Science (GPA: 3.3 / 4.00)

Jan 2023 - May 2025

Chicago, Illinois, USA

Geethanjali College of Engineering

Bachelor's in Computer Science (GPA: 3.4 / 4.00)

July 2018 - June 2022

Hyderabad, Telangana, India

Experience

Leap of Faith Technologies

Software Developer

Jan 2025 – Present

Libertyville, IL, USA

- Developed TheracareAI app using **Flutter** and **Dart**. Implemented AI-powered medication assistant with personalized notes, medication scanning/search, and ensured reliability through Patrol- mobile testing.
- Increased patient engagement by 40% and reduced medication errors by 25% by building an AI medication assistant with **Flutter**, **TensorFlow Lite**, and **Python NLP**
- Boosted response reliability by 20% and clinician adoption of AI features by applying prompt engineering to large language model workflows.

Leap of Faith Technologies

Software Development Intern

May 2024 – Aug 2024

Libertyville, IL, USA

- Developed a backend alert system using Python and **RESTful APIs** to handle responses and automated real-time notifications for severe health conditions.
- Reduced manual review time by 60% by developing a record analysis tool with **OpenAI** integration to summarize 10K+ patient records.

Zemoso Technologies

Full Stack Software Engineer

Jan 2022 – Dec 2022

Hyderabad, India

- Developed and implemented new features and functionality using **ReactJS** and **Spring** Frameworks, resulting in a 20% increase in user engagement.
- Developed UI components using **ReactJS** and Material UI adhering to industry best practices for a web portal that uses IoT to provide real-time insights to ensure worker safety in complex Industrial environments.

CDK Global

Software Developer Intern

Aug 2021 – Dec 2021

Hyderabad, India

- Improved user interfaces with **Angular** and **ReactJS**, increasing user satisfaction by 15%, and enhanced Selenium automation testing, boosting coverage by 30% and reducing defects by 25%.
- Contributed to the adoption of agile methodologies, utilizing Jira and Confluence, improving team productivity by 15% through iterative development cycles.

Projects

Missing Persons Helper | Full Stack Development - Java

- Developed a website for finding missing people using **Html**, **CSS**, **Javascript**, **JavaServlets**, **Mysql** which is user friendly and has efficient retrieval of data.

Driver Drowsiness Detection | Machine Learning - Python

- Designed and developed a robust application using Integrated **Python**, **OpenCV** and **keras** which continuously monitors user's eyes and alarms if drowsy.

Technical Skills

Languages: Java, Python, C, JavaScript, TypeScript, R, Node.js, SQL, MySQL, HTML, CSS, XML, JSON

Technologies: Spring, React, MVC, Hibernate, Android, AWS, HTTP/Web Protocols, REST API, PyTorch, Kafka

Concepts: Data Structures, Algorithms, Object-Oriented Programming, Database Management, SDLC,

Backend, Testing, Problem Solving, Frontend, Web Development, Version Control, Agile, Design Patterns

Tools: Git, Android Studio, IntelliJ IDEA, Visual Studio, Linux, Tableau

Soft Skills: Communication, Teamwork, Self-Starter, Adaptability, Analytical Thinking
