Summary

Experienced versatile IT Specialist and Entry-Level Project Manager with over 6 years of multidisciplinary experience in technical support, hardware/software integration, full-stack development, robotics, and agile project coordination. Holds a B.S. in Information Technology from Pace University, with a concentration in Project Management and Robotics and a minor in Sociology/Anthropology, blending technical precision with people-first design thinking.

Extensively certified in areas including Agile Project Leadership, Business Analysis, Generative AI for Project Management, macOS Support, Supply Chain Management, Facebook Advertising, SEO, Digital Marketing, Google Analytics 4, and Jira Software. Technically proficient in Python, JavaScript, SQL, HTML/CSS, C++, WordPress, Raspberry Pi, and cross-platform IT support for Windows and macOS.

Key Projects & Achievements:

Team Lead & Co-Designer, Pace University Web Design Initiative: Spearheaded the development of a centralized wellness platform for students, faculty, and staff across three campuses. Delivered mobile-optimized wireframes and front-end prototypes (HTML, WordPress), integrating over 10 student-led programs and support services into a multilingual, accessible hub.

IoT Environmental Data Kiosk: Designed and deployed a live sensor-based environmental monitoring kiosk using Raspberry Pi, Grafana, and WordPress to visualize real-time water and weather data for campus-wide display.

Founder of Swagnology LLC: Launched and managed an eCommerce startup, overseeing sourcing, logistics, inventory, and digital marketing through a streamlined online storefront.

Robotics Leadership: Led programming and mechanical design in FIRST Tech Challenge competitions; mentored FIRST LEGO League teams in coding, engineering, and iterative design using LEGO and Raspberry Pi platforms.

Recognized for being a clear communicator and agile leader, combining technical fluency with business acumen and a strong user-centered mindset. Passionate about solving real-world problems through scalable tech solutions, cross-functional collaboration, and continual learning.

Experience

STEM Alliance

FIRST Robotics Coach | Tech Support

Aug 2021 - Present

Mamaroneck, New York

- Led and mentored multiple teams of middle school students in the annual FIRST LEGO League robotics competition. Oversaw all aspects of team development, including project planning, robot design, mechanical construction, and programming using LEGO components and Raspberry Pi systems. Taught students foundational engineering and coding concepts, emphasizing creativity, problem-solving, and iterative design. Coordinated team roles, scheduled build sessions, and prepared students for regional competitions. Fostered a supportive and inclusive environment while reinforcing FLL Core Values such as discovery, innovation, and teamwork.

Key Contributions:

Introduced alternative hardware (Raspberry Pi) to expand beyond SPIKE Prime limitations

Guided the team in developing innovative robotic solutions tailored to the annual challenge

Encouraged cross-disciplinary learning by integrating research, presentation, and technical skills

Promoted STEM engagement and confidence in young learners

Blue-Colab

IT Project Manager

Aug 2021 - Present

Pleasantville, New York, United States

- Developed and deployed interactive kiosk systems for real-time environmental data visualization at Pace University's Pleasantville campus. Engineered a secure, web-based platform using WordPress, Grafana, and a lockdown browser to display live sensor data from Choate Pond's floating monitoring stations (Ada and Alan) and an exclusive on-site weather station (Odin). Designed and maintained a user-friendly interface for public engagement and scientific awareness at the Kessel Student Center.

Key Achievements:

Built a custom kiosk ecosystem with web-locked interface using lockdown browser, ensuring stability and security for public use
Integrated Grafana dashboards to display real-time readings, including pH, temperature, salinity, turbidity, DO%, solar radiation, wind data, and lightning activity

Coordinated with the environmental science team to implement data pipelines from Choate Pond's deep water monitoring buoys (Ada & Alan) and the weather station (Odin)

Enabled accessible public viewing of environmental health metrics to promote water quality awareness

Applied UI/UX principles for interactive and educational design, improving campus sustainability visibility

Technologies Used: WordPress · Grafana · Lockdown Browser · HTML5 · Sensor Integration · System Administration · Environmental Monitoring · Public Display Systems

PACE UNIVERISTY

Team Lead / Co-Designer – PACE UNIVERISTY Non-Profit Web Design Initiative

Sep 2021 - Dec 2021

Pleasantville, New York, United States

- Led the design and development of a centralized wellness platform for students, faculty, and staff across NYC, PLV, and WP campuses, integrating physical, mental/emotional, and social wellness resources.

Key Contributions:

Wireframing & Prototyping: Designed interactive wireframes (Lucid, PowerPoint) for landing pages, user portals, and event calendars.

Front-End Development: Built a responsive prototype using HTML and WordPress, optimizing for mobile/commuter accessibility.

Resource Curation: Unified 10+ initiatives (e.g., Active Minds, Cybersecurity Club) into a single hub with multilingual support.

Impact: Streamlined access to fragmented resources, prioritized inclusivity, and created a scalable framework for future features.

Tools: Lucid Wireframe | HTML | WordPress | Figma | PowerPoint

Swagnology

Company Owner

Jul 2024 - Present

New York, United States

As the owner of Swagnology LLC, I spearhead a dynamic team focused on product sourcing and creating an innovative eCommerce platform tailored for small businesses. At Swagnology, we specialize in identifying and delivering unique, high-quality products that help small businesses thrive in a competitive marketplace. Our upcoming eCommerce platform is designed to empower entrepreneurs by providing them with the tools and resources they need to succeed.

With a strong background in technology and a passion for entrepreneurship, I founded Swagnology LLC to offer small businesses an edge through exceptional product sourcing and a supportive selling environment. Our mission is to facilitate growth and innovation for small businesses, ensuring they have access to the best products and a platform that enhances their online presence.

- Developed a supplier network of 5+ vendors to source high-margin products (average 45% ROI) for small business clients
- Built a WordPress-based platform that reduced client onboarding time by 30% through automated inventory integration
- Implemented data-driven sourcing strategies that increased client product sell-through rates by 22% year-over-year

- Created standardized operating procedures that improved order fulfillment accuracy to 98.7%
- Established partnerships with 3 logistics providers to reduce shipping costs by 15% for clients

With my technical background in IT and project management, I've designed systems that help small businesses:

Track real-time inventory across multiple sales channels

Automate pricing adjustments based on market demand

Analyze sales data to optimize product selection

Our current platform development focuses on integrating AI tools to help clients:

- Generate optimized product descriptions
- Predict inventory needs
- Identify trending products

Education

Pace University - Seidenberg School of Computer Science and Information Systems

Bachelor's degree, Information Technology

Sep 2021 - Jun 2025

Pleasantville, New York

- **GPA:** 3.6
- **Achievements:** Dean's List First Honors
- **Coursework:** BUS-101 Business Practice, Networking, IT Hardware , Python Programming, Applied AI with Deep Learning, Capstone in Information Technology, Project Management, System Analysis & Design, Computer Security, Web Authoring & Digital Media, Topics in Computer & Info System, Database Management, Global Networking Technology, IT120 - Computer Hardware, Intro to Inform Technology, Intro to Computer Systems, Computer Security Overview, Cpsn in Infrmtn Tchnlgy, Systems Design & User Exp

Riverside High School

High School Diploma, Information Technology

2017 - 2021

Yonkers, New York

- **GPA:** 3.8
- **Achievements:** Principal List, High Honor Roll, 90 Club
- **Coursework:** IT Hardware , IT Software, Networking, Computer Hardware, Computer Software

Honors-Awards

- **CERTIFICATE OF APPRECIATION:** Mentor/Coach
- **Dean's List First Honors:** Dean's List First Honors
