

Sohan Reddy Baddam

Data Analyst

Cincinnati, OH | +1 (513) 413 8876 | sohan@quickitmail.com

SUMMARY

- Data Analyst with 3+ years of experience specializing in data processing, visualization, and statistical analysis, proficient in Python, SQL, and SAS to drive informed decision-making.
- Expertise in data cleaning and wrangling, ensuring high-quality data for analysis, with knowledge of SDLC, Agile, and Waterfall methodologies for efficient project execution and reliable insights.
- Well-versed in utilizing advanced tools like NumPy, Pandas, Matplotlib, Seaborn, etc. for in-depth analysis and statistical modeling.
- Hands-on experience in cloud technologies such as AWS, Azure and GCP for scalable data storage, processing, and deployment.
- Proficiency in developing dynamic dashboards and reports using Tableau, Power BI, and Excel, with expertise in SQL and NoSQL databases to support data-driven insights.

SKILLS

Methodologies: SDLC, Agile, Waterfall

Programming Languages: Python, R, SQL, SAS

IDEs: Visual Studio Code, PyCharm, Jupyter Notebook

Packages: NumPy, Pandas, Matplotlib, Seaborn, ggplot2, SciPy, Scikit Learn, TensorFlow

Visualization Tools: Tableau, Power BI, Advance Excel

ETL Tools: SSIS, SSRS, Informatica, Talend

Cloud Technologies: AWS (S3, Redshift, EC2, Glue, EKS, Elastic Beanstalk), Azure (Data Lake, DataBricks), GCP

Databases: MySQL, PostgreSQL, SQL Server, Oracle

Version Control Tools: Git, GitHub, GitLab

Other Skills: Data Cleaning, Data Wrangling, Critical Thinking, Communication, Presentation Skills, Problem-Solving

Operating Systems: Windows, Linux, Mac

EXPERIENCE

Morgan Stanley, USA | Aug 2024 - Present | Data Analyst

- Implemented Agile methodologies to enhance flexibility and responsiveness in data analysis projects, facilitating regular sprints and improving collaboration with stakeholders, resulting in more efficient and timely data processing workflows.
- Industrialized real-time monitoring systems that reduced system downtime by 90%, standardized KPIs across data initiatives, and improved operational efficiency by 25% through better data tracking and accessibility.
- Created impactful data visualizations using Matplotlib, Seaborn, and ggplot2, enhancing presentations and enabling stakeholders to easily understand insights, driving more informed decision-making.
- Designed interactive dashboards in Tableau, improving data exploration efficiency by 30%, allowing stakeholders to quickly access and analyze key metrics, accelerating decision-making processes.
- Conceptualized Databricks for scalable data processing, optimizing analysis workflows and shortening project timelines, enabling faster delivery of actionable insights and improving team productivity.
- Enhanced PostgreSQL databases to improve query efficiency, reducing data retrieval times and ensuring faster access to critical data for reporting and analysis, fostering a more responsive data environment.

Citius Tech, India | Jan 2021 - Jul 2023 | Data Analyst

- Applied Waterfall methodology to improve data cleaning and transformation workflows, enhancing data consistency by 25% and ensuring more reliable and accurate analytical results.
- Conducted detailed data analysis using SQL and Excel, providing actionable insights that aligned with evolving business needs, enabling more informed decision-making across teams.
- Designed and maintained dynamic Power BI dashboards and reports, presenting key metrics and insights that supported data-driven decisions across business units.
- Established effective visualizations using Matplotlib and Seaborn, simplifying complex datasets into clear, easy-to-understand graphics, allowing stakeholders to quickly interpret essential insights.
- Ensured data quality throughout its lifecycle by implementing strict validation protocols and performing comprehensive quality checks, maintaining data integrity and reliability.
- Optimized AWS cloud resources for efficient data storage and processing, achieving a 20% reduction in operational costs through streamlined resource allocation.
- Assisted cross-functional teams with data mining and cleaning, automating repetitive tasks to reduce manual processing time by 40%, ensuring higher-quality data for strategic and operational decisions.

EDUCATION

Master of Science in Information Technology

University of Cincinnati

Dec 2024

Cincinnati, OH, USA

Bachelor of Engineering major in Computer Science and Engineering

Bharath University

Jun 2023

Chennai, Tamil Nadu, USA
