

Summary

Fall 2024 Graduate in Computer Science seeking full time work as Software Engineer

Education

California State University, Fullerton | Fullerton, CA
B.S. in Computer Science - earned December 2024

Saddleback College | Mission Viejo, CA
A.A. in Computer Science - earned May 2020

Coursework: *Calculus/Physics I & II, Artificial Intelligence, Computer Graphics, Linear Algebra, Algorithm Engineering, Blockchain Technologies, Computer Security, Technical Writing, Software Process, Software Design*

Skills/Certifications

Leadership, writing, attention to detail | Agile, Arduino, CAD, C++, Git, Java, Linux, RPA, Scrum, UI/UX

Certified SolidWorks Associate (CSWA) - earned August 2019

Work Experience

- 06/2023 - 08/2023 **Software Intern - Robotic Process Automation**
First American Financial Corporation - Santa Ana, CA
- Automated internal virtual machine requests using Automation Anywhere, Azure's RESTful APIs, Java, JSON and OAuth
- 10/2021 - 02/2022 **Instructional Assistant - STEM/Robotics Electives**
Rancho San Joaquin Middle School - Irvine, CA
- Assisted with robotics lab elective course, introduced topics in robotics software using VEX Robotics
- 01/2018 - 06/2018 **IT Intern - Physical Sciences Computing Support Group**
University of California, Irvine - Irvine, CA
- Performed hardware maintenance, LAMP stack web development and general software/OS assistance

Projects

- 11/2023 - 05/2024 **UV Sensor for Nail Technicians**
Schoon Scientific & Regulatory - Dana Point, CA
- Designed complete prototype of portable UV sensor using C++, Arduino, I2C and Solidworks
 - Programmed OLED and photodiode using Arduino, designed and printed snap-closure mechanical case using SolidWorks
- 09/2018 - 05/2020 **Mars Society's University Rover Challenge**
Saddleback College / SC Robotics - Mission Viejo, CA
- Lead business and programming teams, drove funding and recruitment, produced winning System Acceptance Review
 - Developed computer vision programs for object detection and mineral analysis using C++ and OpenCV
 - Programmed Arduino sensors including GPS, IMU, pH sensor, LiDAR, environmental sensors, and thermal camera
- 01/2018 - 06/2020 **Radio Telescope Research Project**
Saddleback College Astronomy and Physics Club - Mission Viejo, CA
- Developed UI in Java for telescope's field of view and diagnostics, created dynamic celestial coordinate map
 - Documented mechanical and electrical components using Solidworks Drafting Technology
- 04/2020 - 04/2020 **Columbia University DIY Ventilator Challenge**
SC Robotics Ventilator Response Team - Mission Viejo, CA
- Assisted in rapid design of DIY Ambu-Bag compression system for Covid-19 response, designed electrical system

Activities

- 05/2018 - 05/2018 **NASA Jet Propulsion Laboratory, Saddleback College Tour** - Coordinator
- 05/2017 - 09/2018 **Dana Point Sea Scouts Group, Mariners 936** - Adult Advisor
- 05/2016 - 05/2018 **Casa Romantica Gardens and Cultural Center** - Garden Volunteer
