EDUCATION

MASTER OF SCIENCE IN BUSINESS ANALYST

Lewis University, Romeoville, IL, US

Jan '24 - Present

BACHELOR OF BUSINESS ADMINISTRATION IN HUMAN RESOURCES MANAGEMENT

BJR Govt Degree college, Hyderabad, Telangana

Feb 20 – Jun 23

QUALIFICATION SUMMARY

Expertise in Business Analyst skilled in designing and implementing data analytics solutions using tools like **Power BI**, **Tableau**, and **SQL**. Expertise in **data visualization**, statistical modeling, and delivering actionable insights to drive informed decision-making in retail and healthcare industries

PROJECTS

Project :1

Database Creation for Work Management in a Corporate Company:

- **Designed and implemented** a relational database to streamline work management processes within the company, ensuring efficient data storage and retrieval.
- Utilized **SQL** to create and manage **tables**, **relationships**, and **queries**, ensuring data integrity and accuracy across the system.
- **Optimized database performance** by creating **indexed queries** and **stored procedures**, improving data retrieval time for business-critical applications.
- **Automated reporting** processes through SQL queries, enabling managers to generate real-time reports on project statuses, team performance, and resource allocation.

Project: 2. EMR System Implementation at Optimum Health

- Led the **implementation of an Electronic Medical Records (EMR) system** to streamline patient data management, improving operational efficiency and data accuracy.
- Collaborated with **healthcare professionals** and **IT teams** to gather requirements, ensuring the system was tailored to meet the needs of clinicians and administrative staff.
- Ensured compliance with **healthcare regulations** and **data privacy laws** while enhancing the **efficiency of patient record management** and facilitating better decision-making.

Project:3. Brand Awareness and Consumer Preferences Study for Big Bazaar

- Conducted an **in-depth analysis** of customer demographics and shopping behaviors to assess **brand awareness** and **consumer preferences** at Big Bazaar.
- Analyzed data to determine the effectiveness of **advertising campaigns**, **promotions**, and **loyalty programs**, providing actionable insights for improving brand visibility.
- Focused on segmenting consumer preferences across **geographic locations** and **demographic groups** to tailor marketing strategies and optimize customer outreach.

KEY STRENGTHS

Data Integration | Business Data Analytics | Data Mining | Data Warehousing | Data Visualization

TECHNICAL SKILLS

SQL, Tableau, MS excel, Business metrics, Power BI, Informatica, Data pipelines, Time series analysis, Trend forecasting, Data Normalization, Price Optimization Models, Google Analytics.
