Motivated Business Analyst graduate with a passion for leveraging data insights to drive efficiency. Strong analytical, problem-solving, and communication skills, with expertise in MS Excel, Power BI, and Agile methodologies. Seeking a full-time opportunity to contribute data-driven decision-making and process optimization.

TECHNICAL SKILLS

MS Office, Power BI, Tableau, JIRA, SQL, Workday Integrations, Artificial Intelligence
Business & Analytical Skills: Business Analysis, Agile & Scrum methodologies

PROFESSIONAL EXPERIENCE

Business Analyst

Maia Solutions, India

May 2020 - June 2022

- Worked as a Business Analyst in IT, driving digital transformation by gathering requirements, optimizing workflows, and supporting client projects across web and mobile development services to enhance operational efficiency and user experience.
- Developed Business Requirements Documents (BRDs) and Functional Requirements Documents (FRDs), ensuring clarity and actionable steps for technical teams and stakeholders, following Agile and Waterfall methodologies.
- Led API integrations, data imports and automated data flows between enterprise systems, ensuring seamless data synchronization and operational efficiency.
- Created and updated interactive Power BI and Tableau dashboards, which helps in improving data accuracy by 20% and enhancing stakeholder engagement by 40%
- Implemented Agile methodologies, developing 30+ use cases, user stories and requirement specifications, improving system solution quality by 25% and project execution speed.

Business Analyst with Pharma Sales

Anaga Solutions, India

Feb 2019 - Aug 2019

- Created pivot tables and performed VLOOKUPS in MS Excel, automating data analysis with macros, reducing manual work by 30% to process and analyze complex datasets efficiently.
- Supported a high-end marketing team by providing data-driven insights to create a competitive edge.
- Developed marketing and business insights by understanding sales patterns and customer behavior.
- Provided actionable insights to the marketing team, enabling a competitive edge in customer targeting.

EDUCATION

Master of Science, Business Analytics

May 2024

The University of Texas at Dallas

Bachelor of Business Administration

May 2021

Jahnvi Women's Degree College, Hyderabad

ACADEMIC PROJECTS

SEO Project on YouTube for Web Analytics

August 2023 - December 2023

Analyzed real-time traffic growth on a YouTube channel to assess performance, implementing SEO strategies and backlinks to enhance engagement through keyword optimization and high-quality content.

Analyzing real-time traffic on Social Media

August 2023 - December 2023

Leveraged a social media platform to showcase my skills and gain insights into analytics, consistently applying strategies like posting trending content and tracking views, likes, and followers to maximize impact.

Library Database Management System

August 2022 - December 2022

Created a business-aligned database with structured tables, stored procedures, and defined keys to optimize data relationships, managing large systems to ensure efficient storage, updates, and maintenance of crucial information for daily operations.
