

SREE SOWMYA AVUTHU | Business Analyst

Location: MI, USA | Phone: (313) 200-5029 | Email: avuthusrisowmyareddy@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

- Results-oriented **Business Analyst with 3+** years of experience and expertise in **Python** and **SQL**, specializing in data analysis and business intelligence for informed decision-making.
- Proficient in managing and analyzing large datasets using **MySQL** and **MongoDB**, with strong skills in **NumPy**, **Pandas**, **Matplotlib**, **Scikit-learn**, **Seaborn**, and **Plotly** for advanced data analysis.
- Experienced in creating insightful data visualizations using **Tableau**, **Power BI**, and **Excel**, translating complex data into actionable business insights.
- Adept at conducting **GAP analysis**, **SWOT analysis**, **cost/benefit analysis**, and **impact assessments** to drive strategic business decisions.
- Skilled in developing and managing **FRD**, **BRD**, and **SRS documents**, ensuring alignment between business objectives and technical solutions.
- Proficient in cloud computing with GCP, and experienced in using tools like **Git**, **Docker**, **SAS**, **SAP**, and **VS Code** for data governance, quality assurance, and process optimization.
- Strong project management capabilities, utilizing **Agile (Scrum)** and **Waterfall** methodologies to lead projects, focusing on business process modeling and effective stakeholder management.

TECHNICAL SKILLS

Languages	Python, SQL,
Databases	MySQL, Mongo DB
Frameworks	NumPy, Pandas, Matplotlib, Plotly, Seaborn, Scikit-Learn
Visualization Tools	Tableau, Power BI, Excel
Cloud	GCP
Analytical Skills	Data Cleaning, Data Mining, Problem-solving, Critical Thinking, Data Modelling, Data Architecture, Flow Diagrams, Statistics, Cost/benefit analysis, Impact analysis, GAP analysis, Risk analysis, SWOT analysis, A/B Testing, FRD, BRD, SRS.
Core Skills:	Exploratory Data Analysis, Business Intelligence, Business Requirement Analysis, Agile Project Management, Data Governance, Business Process Modeling, Stakeholder Management, Data Quality Assurance
Tools	Git, GitHub, Docker, SAS, VS Code, SAP, Jira, Asana.
Methodologies	Agile (Scrum), Waterfall

PROFESSIONAL EXPERIENCE

Anthem, MI Business Analyst

Jan 2024 – Current

- Led the digital transformation initiative in the healthcare domain, collaborating with cross-functional teams to **implement cloud-based solutions on GCP**, enhancing patient data management and streamlining hospital workflows, contributing to a significant reduction in operational costs.
- Conducted detailed analysis of **Electronic Health Records (EHR) using Python, SQL and Scikit-learn** to identify inefficiencies in the patient onboarding process, leading to improved patient retention and a smoother admission process.
- Designed and optimized **MySQL databases** for managing patient health records within a new healthcare data platform, resulting in more efficient data storage, faster query processing, and quicker generation of patient reports, crucial for timely medical decisions.
- Developed interactive healthcare **dashboards and visualizations using Plotly**, allowing for dynamic exploration of patient data, treatment outcomes, and hospital performance metrics, aiding in more informed decision-making by healthcare providers.
- Created real-time dashboards using Tableau** to provide senior management with actionable insights into healthcare service delivery and operational efficiency, pivotal in strategic planning and improving patient care.
- Facilitated **requirements gathering sessions with healthcare stakeholders**, documenting **Business Requirements Documents (BRD)** and **Functional Requirements Documents (FRD)** that guided the successful launch of a new patient care initiative.
- Implemented a comprehensive **data governance framework** to ensure the accuracy and compliance of healthcare data, leading to a marked reduction in data inconsistencies and improving the reliability of patient information.
- Led **Agile sprints for critical healthcare projects**, ensuring that all project deliverables were met on time, which was essential for maintaining high levels of satisfaction among stakeholders in the healthcare sector.

Hexaware Technologies, India Business Analyst

Dec 2020 – Jul 2022

- Automated data extraction and analysis with **Python scripts** and crafted **complex SQL queries**, boosting operational efficiency and accuracy by 25% and providing insights to support strategic decisions.

- **Developed and maintained business intelligence solutions** using Power BI providing actionable insights that contributed to a 12% increase in sales.
- **Conducted GAP analysis** to identify areas of improvement in the existing business processes, leading to the development of optimized workflows that enhanced productivity by 15%.
- **Facilitated stakeholder workshops** to gather requirements and translate them into technical specifications for development teams.
- Developed advanced **Excel models and dashboards** using functions like **Pivot Tables**, **VLOOKUP**, and **conditional formatting** to streamline data analysis and visualization, which enhanced reporting efficiency and provided clear insights for strategic decision-making.
- Architected and executed a data migration strategy to **Google Cloud Platform (GCP)** using tools such as **BigQuery** for data analysis and **Cloud Storage** for scalable data management, ensuring minimal downtime, enhanced data integrity, and improved performance of data operations.
- Integrated business processes with **ERP systems** in collaboration with **SAP** teams, improving data flow and reducing processing times by 20%, while implementing **data quality assurance** processes that cut data errors by 30% and enhanced reporting reliability.
- Utilized **Seaborn** for advanced data visualization, creating detailed statistical plots that revealed trends and patterns in business data, facilitating deeper insights and informed decision-making.
- Adopted **Waterfall methodologies** to manage projects, facilitating iterative development and continuous feedback, which accelerated delivery and improved project outcomes.
- Played a key role in **business process modeling**, creating detailed documentation and diagrams that helped align IT solutions with business needs.

Cybage Software, India
Business Analyst

Jan 2020 – Nov 2020

- Automated routine data processing tasks **by developing Python scripts**, leading a business process re-engineering project that enhanced data accuracy, reduced manual effort by 30%, and improved operational efficiency by 18%, aligning process flows with the organization's strategic goals.
- Utilized **MongoDB** to manage and query large volumes of unstructured data, enabling more efficient data storage and retrieval for various business processes.
- Utilized Python libraries such as **Pandas and NumPy** to perform advanced data analysis and manipulation, enabling more accurate forecasting and insightful reporting that supported strategic business decisions.
- **Designed and implemented data models** using **SQL** and integrated **Excel** and **SAS** for advanced analytics, enabling more informed decision-making across the business.
- Collaborated with stakeholders to define and document detailed **use cases** and requirements, ensuring alignment with business objectives.
- **Conducted SWOT analysis** to evaluate the impact of market trends on the company's product offerings, which informed strategic pivots and product development efforts.
- Leveraged Excel functions like **Pivot Tables and VLOOKUP** to analyze and summarize complex datasets, while developing **flow diagrams and process models** to visualize and streamline business operations, resulting in faster, more insightful reporting and improved clarity and communication among teams.
- Led **A/B testing initiatives** to optimize marketing campaigns, resulting in a 10% increase in conversion rates, while utilizing **Jira and Asana** to track project progress and manage tasks, ensuring projects stayed on track and within scope.

EDUCATION

Master's degree in Computer Science
Trine University, Indiana

May 2024

Bachelor of Technology - BTech in Computer Science
Bennett University, Greater Noida

May 2021
