Professional Summary

Data Analyst with hands-on experience analyzing market trends, transaction data, and performance metrics using **SQL**, **Excel**, and **Power BI**. Skilled in designing interactive dashboards and streamlining data workflows to support business strategy and reporting. Strong analytical and communication skills with a focus on delivering actionable insights across teams.

Experience

Data Analyst – Senior Consultant

Jun 2025 – Present

Heartland Community Network

Bloomington, IN

- Designed **Power BI** dashboards to benchmark healthcare centers' staffing, service utilization, and training coverage against statewide averages, supporting data-driven workforce planning decisions.
- Analyzed multi-year workforce datasets using **SQL** to identify cost drivers, utilization patterns, and operational inefficiencies, enabling targeted improvement strategies.
- Developed automated **Excel VBA** tools to validate and standardize multi-source data, cutting manual processing time by 60% and improving reporting accuracy.
- Integrated internal records with external healthcare datasets to build comprehensive analytics views for spend analysis, contract alignment, and performance optimization.

Data Science Research Assistant

Jan 2025 – Present

Indiana University School of Medicine

Bloomington, IN

- Constructed robust end-to-end machine learning pipelines that integrated clinical, imaging, and genomic data for Alzheimer's disease early prediction.
- Automated recurring research outputs using reusable R scripts and ggplot templates, reducing figure formatting time by more than 50%.
- Led collaborative efforts using JIRA to track data tasks, monitor quality issues, and meet evolving regulatory compliance requirements for academic publishing.

Program Analyst – Data Analyst

Apr 2021 – Jul 2022

Cognizant Technology Solutions

Hyderabad, India

- Developed OBIEE dashboards and PL/SQL-based reporting solutions for financial and operational teams to improve visibility into business operations.
- Enhanced report performance by 40% via query optimization, aggregation strategies, and deployment of scalable dimensional data models.
- Automated complex ETL pipelines using Oracle Data Integrator and conducted QA testing to validate business logic, boosting report accuracy and timeliness.
- Authored technical documentation and delivered user training to guarantee effective system handoffs and enhance user proficiency.

Data Science Intern

Sep 2020 – Feb 2021

Movidu (IIT Bombay Collaboration)

India

- Developed a YOLOv5-based face-mask detection model achieving 92% accuracy and deployed a FastAPI REST API for scalable, low-latency inference on edge devices.

Projects

Workforce Performance & Attrition Analytics Dashboard | Power BI, SQL, DAX

- Developed an interactive **Power BI** dashboard to visualize attrition trends, performance metrics, and departmental workforce analysis, empowering HR leadership with real-time insights for strategic workforce planning.
- Integrated data from multiple sources using **SQL** and **DAX**, and designed dynamic drill-through reports and slicers for operational, compliance, and executive reporting.

E-commerce Sales & Profit Optimization Dashboard | Power BI, SQL, DAX

- Constructed DAX measures for sales velocity, basket analysis, and shipping cost per order—integrating slicers and drillthrough to facilitate interactive exploration.
- Rolled out multi-page Power BI reports with what-if parameters and bookmarks—simulating pricing and bundling scenarios for strategic decision-making.

Technical Skills

Languages: Python, SQL, R

Tools: Tableau, Power BI, QuickSight, Looker, OBIEE, Alteryx, Microsoft Fabric, Oracle Analytics Cloud (OAC)

ML & Data Science: Scikit-learn, LightGBM, TensorFlow, Keras

ETL & Automation: Excel(VLOOKUP, VBA, Macros, Power Query), Azure Data Factory, Git, Docker, Power Automate

Cloud Platforms: AWS (EC2, S3), GCP, Azure (Synapse, Data Factory)

Databases: PostgreSQL, Oracle, SQL Server, MySQL

MLOps: MLflow, Jenkins

Certifications: Power BI Data Analyst Associate, Tableau Analyst, HIPAA, DeepLearning.AI (NLP, DL), Oracle AI Vector Search

Education

Indiana University, Bloomington

Aug 2023 – May 2025

Master of Science in Data Science

Bloomington, IN

- Relevant Coursework: Applying ML Techniques in NLP, Predictive Analysis and Data Mining, Data Visualization, Cloud Based Analytics, Advanced Database Concepts, Statistics, Exploratory Data Analysis, Applied Machine Learning
