SUMMARY

I am a dedicated and analytical Computer Science major with a strong foundation in programming, data structures, and software development. My academic journey has equipped me with hands-on experience in coding languages such as Python, Java, and C++, as well as expertise in algorithms, databases, and Artificial Intelligence. I am passionate about leveraging technology to solve real-world problems and am constantly exploring new ways to enhance my skills. With a keen eye for detail and a collaborative mindset, I am eager to contribute to innovative projects that push the boundaries of what's possible in the tech industry.

EDUCATION

Bachelor of Science in Computer Science

Aug '21 – Aug '25

San Diego State University, College of Sciences

San Diego, CA

- Member of SDUS's gaming club
- Relevant Coursework: 3D Game Programming, Artificial Intelligence, Data Structures, Computer Architecture
- Major GPA - 3.0

EXPERIENCES

PATS Student Assistant

Nov '24 – Present

San Diego State University

San Diego, CA

- As a Parking and Transportation Student Assistant, I assist students and staff with parking inquiries, manage permits, and enforce regulations to ensure smooth daily operations. This role has strengthened my communication, problem-solving, and customer service skills while supporting a well-organized campus transportation system.

Supplemental Instructor (SI) Leader

Jan '23 – Nov '23

San Diego State University

San Diego, CA

- As a Supplemental Instructor for Pre-Calculus, I facilitated group study sessions, clarified complex mathematical concepts, and developed targeted learning strategies to enhance student understanding. My role involved fostering collaborative learning environments, resulting in improved student performance and engagement.

Distributor

Jan '19 – Dec '21

Dabur India

Hyderabad, India

- As a Distributor for Dabur India, I managed the distribution and logistics of products, ensuring timely delivery to retailers and maintaining strong client relationships. My role involved coordinating with various stakeholders, optimizing supply chain efficiency, and driving sales growth in the assigned territory.

PROJECTS

- INOX Theater Ticketing System
- Created own programming Language - BILANG
- Built a hybrid sorting algorithm for large - scale real-time financial transaction data using Java
- Designed and Developed own game using Unity – “Hero’s Humiliation”
- Built working model of a Parking Sensor
- Neural Network–Based Noise Reduction for Voice Clarity
- Working on the Development of Parking and Transportation website of SDSU

SKILLS

- Microsoft Office (Excel, Word, Powerpoint)
- Problem-solving
- Programming Languages (Java, C, C++, Python, JavaScript)
- Familiarity with Operating Systems (Windows, Mac OS, Linux, IOS and Android)
