Education

Stevens Institute of Technology	Hoboken, NJ
Master of Science in Information Systems	09/2023 - 05/2025
Courses: Data Analytics, Business Analytics, Machine Learning, Management of AI, Fundamentals of Consulting, R , Project Management	
Osmania University	Hyderabad, India
Bachelor of Technology in Business Management	07/2018 - 11/2021

Experience

Big Apple Greeter	Hoboken, NJ
Business Analyst - Volunteer	08/2025 - Present
- Piloted a data governance framework for the CRM migration, authoring product requirements documents, and constructing success metric trees, which led to a 25% reduction in duplicate data entries. - Applied predictive analytics to donor segmentation, boosting outreach efficiency by 30% through A/B tested campaigns and scaled volunteer engagement dashboards to 200+ users, achieving 40% adoption growth. - Spearheaded the creation of a volunteer training program, decreasing onboarding time by 40% and increasing volunteer retention by 20% within the Big Apple Greeter org.	
Stevens Institute of Technology	Hoboken, NJ
Operations Analyst	10/2023 - 05/2025
- Built ML-driven event analytics features, reducing budget waste by 25% and validating impact with post-launch KPIs. - Synthesized student feedback into actionable product requirements, driving a 15% increase in satisfaction. - Spearheaded the creation of success metric trees and product requirement documents to guide the CRM migration, leading to a 20% increase in volunteer satisfaction scores related to CRM usability.	
Stevens Institute of Technology	Hoboken, NJ
Research Assistant	06/2024 - 09/2024
- Researched applications of digital twins and digital threads across healthcare, manufacturing, and financial services, synthesizing insights from 30+ academic and industry papers. - Built Python NLP workflows for automated parsing and clustering, reducing preprocessing time by 60% and saving researchers ~8 hours weekly. - Conducted 40+ user interviews with researchers and industry experts, translating findings into product requirements for digital innovation projects. - Developed Power BI dashboards integrating SQL-driven datasets, enabling visualization of adoption trends and anomaly detection for long-term feasibility analysis	
YES BUILDERS	Hoboken, NJ
Product Manager	01/2022 - 07/2023
- Delivered 30% faster deal-closure insights by leading the product lifecycle of predictive modeling tools using SQL and Python. - Boosted client conversions by 3% through analytics-driven sales features and A/B testing and cut reporting effort by 10+ hours weekly by automating portfolio and KPI dashboards in Tableau and Power BI.	

Projects

Airbnb Price Prediction Analytics	01/2024 - 04/2024
- Devised an Airbnb pricing algorithm exploiting Python and ensemble methods, analyzing 15+ factors and seasonal booking trends resulting in 12% more accurate price suggestions for users. - Automated data pre-processing pipelines with SQL/Python for multi-source integration and implemented methods to analyze 15+ pricing factors - Transformed unstructured customer reviews into actionable pricing strategies by deploying NLP-driven sentiment analysis, which decreased time to identify key trends by 35%.	
AI Powered Resume Assistant	09/2023 - 12/2023
- Engineered a Streamlit resume web application leveraging OpenAI GPT-3.5-turbo that refined content and optimized resumes for a seamless user experience, achieving a 4.5/5 satisfaction rating from 150+ users. - Designed a system for PDF and DOCX export with fpdf and python-docx, facilitating seamless resume. - Optimization Orchestrated user-centered design for resume web application, creating seamless workflows for generating, refining, and optimizing resumes, resulting in a 4.5/5 average user satisfaction score from 150+ users.	

Skills

Data Science & Programming: SQL (Advanced), Python (Advanced), R	.	.	.	.	.
Software Development Tools: TensorFlow Lite for Edge AI Applications; Streamlit for Interactive Web Apps; OpenAI GPT-3.5-turbo for NLP					
Analytical Techniques: Predictive Analytics Methods; A/B Testing Frameworks; Descriptive & Inferential Statistical Methods, Agile Methodologies
