EDUCATION

University of North Carolina at Greensboro

B.S., Computer Science Greensboro, USA

08/2021 – 05/2025

GPA 3.5

WORK EXPERIENCE

Software Engineer Intern, B2Solutions

Lewisville, NC

05/2024 – 08/2024

- Built a backend system with **Java and MySQL** that let users create, read, update, and delete data (CRUD). Set it up with a REST API to keep things organized and scalable (shopping cart project). Analytics were done using **PowerBI**
- Made a **chatbot in Python** that used **AWS Lambda, DynamoDB, and API Gateway** so it could handle data smoothly and run without its own server.
- Worked on a small team using **Git, Jira, and Agile methods**. Helped with sprint planning, code reviews, and tracking work to stay on schedule. Performed data analysis using **PowerBI**.

Data Scientist/Engineer Intern, Ashley Furniture

Advance, NC

05/2023 – 08/2023

- Automated data workflows using **Azure Data Factory, Databricks, and SQL Server**, reducing processing time by over 60%, improving data accuracy, and enabling daily refresh of key reports without manual intervention
- Designed interactive **Power BI** dashboards to highlight trends, track KPIs, and support cost-saving strategies across multiple departments.
- Delivered insights for 200+ projects to guide business strategy
- Participated in testing to ensure functionality and reduce bugs
- Contributed to shipping client-facing software in a production-like setting

Tennis Coach, Hanes Park

Winston-Salem, NC

06/2022 – 08/2022

- Mentored and coached over 50 children (ages 6–10) in preparation for tournaments, fostering skill development and teamwork

Lead Assistant Librarian, Lewisville Public Library

Lewisville, NC

06/2021 – 08/2021

- Organized and categorized over 200 books daily, streamlining library operations
- Assisted patrons with computer usage, enhancing user experience and technology access
- Trained other assistant librarians and volunteers

SKILLS

Certifications:

CompTIA Security+ | AZ-500 | AZ-900 | DP-900 | SnowPro® Associate: Platform Certification Snowflake

Languages & Tools:

Java, Python, JavaScript, HTML/CSS, React, REST APIs, AWS Lambda

Databases:

MySQL, PostgreSQL, DynamoDB, Snowflake

Cloud & Data (ETL):

Azure (Data Factory, Databricks ect.), Power BI, Snowflake
