

Sri Chaitanya Reddy Kanupuru

Dallas, Tx | +1 (214) 404-6581 | chaitureddy1907@gmail.com | USA | [LinkedIn](#)

PROFESSIONAL SUMMARY

- **Data & Business Analyst** with **3+ years of experience** in **statistical analysis, BI reporting, requirements gathering, and predictive modeling** to drive business performance.
- Proficient in **Python, SQL, R, MATLAB** for data analysis, **AI/ML fundamentals** (classification, regression, clustering, anomaly detection), and **ETL/data pipelines**.
- Skilled in **requirements gathering, BRD/FSD documentation, gap analysis, UAT testing, and stakeholder communication**, ensuring alignment between business goals and analytics solutions.
- Experienced with **BI tools (Tableau, Power BI, ArcGIS, Looker, MicroStrategy)** to deliver **interactive dashboards and reports** that influence executive decision-making.
- Adept at **data storytelling and process improvement**, translating complex datasets into actionable insights for **operational efficiency, cost reduction, and customer experience**.
- Collaborative team player with **Agile/SDLC experience**, proven success in **cross-functional projects, stakeholder management, and executive presentations**.

WORK EXPERIENCE

Business Analyst (Intern)

October 2023 – May 2025

Chartwells Higher Education Dining Services, Dallas, TX

- **Engineered** scalable **ETL pipelines** with **Python** and **SQL**, cutting Built and optimized **ETL pipelines** using **Python** and **SQL**, improving data efficiency by **40%** and enabling near **real-time analytics**.
- Designed **Tableau** and **Power BI dashboards** to analyze **customer flow** and **spatial patterns**, supporting data-driven layout and service strategies.
- Implemented **predictive models (classification, regression, clustering)** to optimize labor allocation and inventory planning, increasing utilization by **25%**.
- Conducted **statistical analysis (distributions, regressions, clustering)** on large datasets to identify **revenue leakage**, driving annual savings of **\$50K**.
- Delivered executive-level **data storytelling presentations**, translating analytics into actionable strategies for leadership.
- Collaborated with **finance** and **operations teams** to integrate **data-driven menu pricing strategies**, improving profit margins and customer satisfaction.
- Automated **KPI reporting** with **Excel (PivotTables, VBA, macros)**, reducing reporting time by **30%**.
- Explored enterprise BI platforms including **ArcGIS, Looker, and MicroStrategy** to expand dashboarding and visualization capabilities.
- Piloted **AI-driven sentiment analysis** of customer feedback, generating insights that improved service quality and customer experience.

Data Analyst

August 2022 – July 2023

Jade Global Software Private Limited, India

- Gathered and documented **business requirements** into **BRDs** and **FSDs**, ensuring ERP and BI enhancements aligned with organizational goals.
- Designed **SQL** and **Snowflake data marts**, improving scalability of enterprise analytics and reducing query processing times.
- Optimized **Tableau dashboards**, reducing load times by **30%** and increasing accessibility for executives and analysts.
- Applied **Python** and **R-based statistical models (regression, clustering)** to ERP datasets, enhancing forecasting accuracy and business planning.

- Presented **analytical insights** through **visual reports and slide decks**, bridging technical outputs with non-technical leadership decisions.
- Deployed **GCP** and **Teradata**-based solutions for cloud analytics, ensuring scalable and integrated reporting systems.
- Maintained **95% SLA compliance** by balancing **ERP enhancements** with day-to-day production analytics support.
- Worked in **Agile sprints**, integrating analytics into **UX** and product performance reviews to improve usability.
- Championed a **data governance initiative**, standardizing master data definitions across ERP modules, reducing inconsistencies by **20%**.

Data Analyst Intern

August 2021 – July 2022

Jade Global Software Private Limited, India

- Assisted in **requirements gathering**, **UAT testing**, and stakeholder workshops to support **ERP** and **BI rollouts**.
- Built and optimized **ETL workflows** using **Python**, **SQL**, and **Airflow**, improving pipeline reliability by **25%**.
- Integrated **machine learning models** for **anomaly detection**, improving prediction accuracy and reducing operational risks by **15%**.
- Designed **BI dashboards** with **AWS S3** and **Snowflake data sources** to monitor semiconductor **KPIs** and flag supply chain risks.
- Created **3D MATLAB visualizations** for performance metrics, supporting **spatial analysis** and ergonomic system optimization.
- Delivered executive-level **data and compliance presentations**, influencing governance and engineering strategies.
- Supported **business development** by preparing **technical proposals**, BI demos, and client-facing documentation.
- Applied **Agile** and **SDLC principles** to deliver iterative improvements in BI and ERP workflows.
- Performed **UX survey data analysis** using **statistical models**, providing insights that guided ERP portal enhancements.

SKILLS

Programming & Data Analysis: Python (Pandas, NumPy, Scikit-learn), R, MATLAB, SQL, PL/SQL, Java

Statistical Techniques: Probability Distributions, Regressions, Clustering, Convolutions, Hypothesis Testing

Machine Learning & AI: Deep Learning, Reinforcement Learning, Generative AI, Regression, Classification, Feature Engineering

MLOps & Deployment: Docker, Kubernetes, Kubeflow, Airflow, CI/CD for ML, Model Monitoring

Cloud Platforms: GCP, AWS, Azure

Data Engineering: Dataflow, Snowflake, Databricks, ETL Pipelines

Data Architecture: Data Structures, Data Schemas, Big Data Processing

Project Methodologies: Agile (Scrum, Kanban), ITIL, UAT, KPI Reporting

Tools & Platforms: Solution Manager, ServiceNow, JIRA, Git, SAP Launchpad, SAP GUI

Additional Skills: Data Governance, Business Process Analysis, Integration Support, Change Control

EDUCATION

Master's in Business Analytics and Artificial Intelligence, University of Texas at Dallas

May 2025

Bachelor's in Information Technology, MLR Institute of Technology

May 2023

CERTIFICATIONS

- **Certified Data Analyst – Python & SQL (Udemy)**
- **Machine Learning & Statistical Analysis (Coursera)**
- **MATLAB for Data Analysis & Visualization (MathWorks)**
