EDUCATION

The University of Texas at Dallas

Master of Science, Business Analytics and Artificial Intelligence

August 2024 – June 2026

CGPA 3.95

Honors: Dean's Excellence Scholarship

Jawaharlal Nehru Technological University Anantapur, India

Bachelor of Technology, Electronics and Communication Engineering

April 2023

CGPA 3.56

SKILLS AND CERTIFICATIONS

Languages & Databases: R (Shiny), Python (Pandas, NumPy, Sklearn, PyTorch, Matplotlib), SQL (MySQL), NoSQL (MongoDB)

Analytics & Visualization: Power BI, Tableau, Process Modeling, Data Analysis, Data Wrangling, Predictive Analytics, Pattern Recognition, Ad-hoc Reporting, Exploratory Analysis, Data Trend Analysis, Machine Learning

Tools & Competencies: Linux, Office 365 (MS Excel, Outlook, PowerPoint), Prompt Engineering

Interpersonal Skills: Effective Communicate, Innovation, Multitasker, Problem Solving, Team Collaboration, Documentation, Presentation, Email Communication, Proactive, Data Story Telling and Reporting

Certifications: AWS Certified Cloud Practitioner, Tableau Data Analyst, Azure AI Fundamentals

PROFESSIONAL EXPERIENCE

Salesable (Mumbai, India) | Associate Data Analyst

January 2023 – June 2024

- Designed and automated Power BI reports, real-time KPI monitoring and dashboards, utilizing Power Automate for workflow automation and API integrations for data connection, improving report generation by 30%.
- Built and automated Power BI reports, R-based forecasting models, and Azure dataflows, enhancing real-time business intelligence insights and decision-making, contributing to a 15% improvement in forecasting accuracy for key performance indicators in alignment with business objectives.
- Automated data workflows and reporting processes and reducing manual reporting time by 30% and improving real-time accuracy to 99% using Power BI and SSIS.

Solar Secure Solutions (Bengaluru, India) | Data Analyst Intern

July 2022 – September 2022

- Employed MS Excel's advanced functionalities for data analysis and modeling, leading to a 20% improvement in financial forecasting accuracy.
- Utilized SQL querying using Microsoft SQL and SSIS to extract and manipulate data, reducing report generation time by 30% and enhancing data accuracy.
- Implemented comprehensive data quality assurance processes, resulting in a 25% reduction in data errors and ensuring the accuracy and reliability of critical datasets.

ACADEMIC PROJECTS

InstaCart: Data Pipeline on Ubuntu Cluster

January 2025 – April 2025

- Built a Linux-based Ubuntu VM and configured Hadoop, Hive, Spark, Sqoop, and Flume to create a fully functional big data environment from scratch.
- Mounted the MySQL database provided by UTD faculty, extracted 200MB of Instacart data using Sqoop, and used Flume, Hive, and Spark to analyze user behavior in real time.
- Collaborated with teammates to deploy a distributed system across VMs, ensuring seamless data ingestion, processing, and analysis across nodes.

Face Mask Detection Using Machine Learning

July 2024 – September 2024

- Developed a real-time face mask detection system with 97.5% accuracy using Python and neural networks, training MobileNetV2 on 4,000 images and reduced false positives by 15% through advanced data cleaning and augmentation techniques, improving classification precision to 90%.

LEADERSHIP & ACTIVITIES

The University of Texas at Dallas | Orientation Leader

February 2025 – June 2025

- Led 10+ orientation sessions with a team for 4500+ incoming students, delivering campus tours, facilitating group activities, and helping ease the transition to campus life.
- Provided 1:1 guidance and support to 800+ students, addressing academic, housing, and campus resource queries, consistently earning top feedback from supervisors.
