PROFESSIONAL SUMMARY:

Software Engineer with a strong academic foundation and hands-on internship experience in full-stack development using Java, Spring Boot, React.js, and SQL, currently seeking a challenging software engineering role to apply and expand technical skills. Proficient in core Java 8 concepts including OOP, Collections, Exception Handling, I/O, Multi-Threading, Streams, Functional Interfaces, and JDBC. Experienced in building responsive, dynamic user interfaces with React.js, HTML, CSS, and JavaScript, ensuring cross-browser compatibility and optimized performance. Skilled in designing RESTful APIs, working with Microservices Architecture, and integrating APIs using modern development tools and IDEs. Passionate about cloud-native development with practical experience deploying services on AWS (EC2, RDS, S3, Lambda) and foundational knowledge of GCP (App Engine, Firestore). Strong understanding of Agile (Scrum) and SDLC methodologies, committed to writing scalable, maintainable code and collaborating effectively within cross-functional teams. Eager to contribute to a dynamic organization and grow as a software.

SKILLS:

Programming Languages: Java, Python, JavaScript, SQL, C

Frameworks: Node.js, Express.js, React.js, Typescript, HTML, CSS

Databases and Cloud: MySQL, SQL Server, AWS (EC2, S3, RDS, Lambda, IAM), GCP (App Engine, Cloud Functions, Firestore)

EXPERIENCE:

Software Developer Intern, Infrapod Technologies Inc, TX

Jul 2024 - May 2025

- Developed backend services using Node.js and Express.js to handle business logic for user management, authentication, and notifications, integrating data from multiple sources for improved data management and seamless data integration, following clean code practices with streams, functional interfaces, and lambda expressions.
- Built and consumed **RESTful APIs** for smooth communication between **microservices**, tested using **Postman** and documented with **Swagger** for frontend and QA collaboration.
- Implemented **Hibernate ORM** and **JPA** for database access, writing complex **SQL queries**, **stored procedures**, and **triggers** for efficient data operations.
- Built dynamic, reusable **UI components** using **React.js**, utilizing **Hooks** and **functional components** for better **state management** and maintainability.
- Focused on **form handling**, **data display**, and **responsive layouts**, styled using **HTML5**, **CSS3**, and **responsive design** principles to ensure **mobile compatibility**.
- Worked across all phases of the **SDLC** in an **Agile** environment using **Jira** and **Confluence**, with version control managed via **Git** and **GitHub**.
- Optimized database queries and implemented efficient storage solutions, reducing query execution time.

Software Engineer Intern, XLR-KONNECT, India

Jan 2021 - Nov 2022

- Involved in the full **Software Development Life Cycle (SDLC)** including **requirement analysis**, **design**, **development**, **testing**, and **deployment**.
- Designed and implemented **backend logic** using **Node.js**, and **Express.js** with RESTful APIs built using **Spring annotations**.
- Utilized **Node ORM** for mapping relational databases, and worked extensively with **MySQL**, creating schemas, indexes, and complex queries.
- Developed and integrated interactive **UI features** using **React.js**, **HTML**, and **CSS**, improving admin and reporting modules. Ensured responsive and modular design in **React** components, contributing to a more user-friendly and maintainable frontend.
- Participated in **Agile sprints**, daily scrums, and **QA collaboration**, delivering well-documented, clean code as part of a cross functional team.

EDUCATION

Master of Science in Computer and Information Science

Jan 2023 – Dec 2024

Southern Arkansas University, Magnolia, AR

Bachelor of Technology in Computer Science and Engineering

Jun 2018 – Jun 2022

Sasi Institute of Technology & Engineering, India
